Volume II

Campus Community Policies

2.0 Introduction

The policies provided in this Volume II pertain to all members of the College community. This Volume II of the Policy Manual was developed to describe some of the expectations of members of the College community and to outline the policies and programs available.

2.1 General Institutional Policies

2.1.1 Equal Opportunity and Affirmative Action Policies

2.1.1.1 Equal Employment Opportunity and Affirmative Action Employment Policy

Our goal at Bethany College is to recruit, hire, and maintain a diverse workforce. Equal employment opportunity is not only good business – it is the law and applies to all areas of employment, including recruitment, selection, hiring, training, transfer, promotion, termination, compensation, and benefits.

As an equal employment opportunity employer, Bethany College does not discriminate in its employment decisions on the basis of race, religion, color, national origin, gender, sexual orientation, age, disability, Vietnam or disabled veteran status, or on any other basis that would be in violation of any applicable federal, state, or local law. Furthermore, Bethany College will make reasonable accommodations for qualified individuals with known disabilities unless doing so would result in an undue hardship.

An employee who believes that rights under the EEO/AA policy have been violated may report such in writing directly to the administrative officer over the department.

2.1.1.2 Equal Educational Opportunity and Affirmative Action

Bethany College does not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, disability, Vietnam or disabled veteran status, or on any other basis that would be in violation of any applicable federal, state, or local law in the administration of its educational policies, admissions policies, and scholarship and loan programs. The College is committed to creating a community in which a diverse student population can live and work with tolerance and respect for the rights of each individual. Area Affirmative Action Officers (AAOs) are the administrative officers over each area of College life (President's Cabinet). Individuals who suspect improper actions by other members of the Bethany College community shall report these actions to the AAO of the relevant area. Someone who suspects that an area AAO has acted improperly shall contact the Chief Affirmative Action Officer.

2.1.2 Institutional Policy on Discrimination and Harassment

The College is committed to upholding standards that promote respect and human dignity in an environment fostering learning and professionalism. It is the policy of the College to maintain

an educational and work environment free from all types of discrimination and harassment, an open environment which values and protects individual dignity and the integrity of human relationships. Accordingly, all forms of discrimination against or harassment of any member of the College community, whether based on race, religion, color, national origin, gender, sexual orientation, age, disability, Vietnam or disabled veteran status, or on any other basis that would be in violation of any applicable federal, state, or local law, are prohibited.

The educational process at the College is based on mutual trust, freedom of inquiry, freedom of expression, and the absence of intimidation and exploitation. Such an atmosphere of respect and regard for individual dignity among members of the academic community is essential if the College is to function as a center of academic freedom and intellectual advancement. In addition, the College has a compelling interest in assuring the provision of an environment in which learning and work may thrive. Such an environment requires free and unfettered discussion of the widest possible nature, one which encourages expression of all points of view. The College recognizes that the academic setting is distinct from the workplace in that wide latitude is required for professional judgment in determining the appropriate content and presentation of academic material. Assertions regarding any of the characteristics listed above, however, should be directly related to the exchange of ideas, ideologies or philosophies. Any such assertions in the teaching context that are persistent, pervasive, and not germane to the subject matter may constitute sexual or another form of harassment and will not be tolerated.

2.1.2.1 Harassment

Harassment is verbal or physical conduct that denigrates or shows hostility or aversion to an individual's race, religion, color, national origin, gender, sexual orientation, age, disability, Vietnam or disabled veteran status, or on any other basis that would be in violation of any applicable federal, state, or local law if the conduct also includes one or more of the following:

1. Has the purpose or effect of creating an intimidating, hostile, or offensive working environment;
2. Has the purpose or effect of unreasonably interfering with an individual's work performance;
3. Otherwise adversely affects an individual's employment opportunities;
4. Has the purpose or effect of creating an intimidating, hostile, or offensive study or learning environment;
5. Has the purpose or effect of unreasonably interfering with an individual's study or learning experience; and/ or
6. Otherwise adversely affects an individual's educational opportunities.

2.1.2.2 Sexual Harassment

Sexual harassment is a form of harassment and gender discrimination. It occurs in a variety of circumstances that tend to share a common element, which is the introduction of sexual conduct or comments in the work or educational setting. Often, sexual harassment involves relationships of unequal power and contains elements of coercion, as when compliance with requests for sexual favors or sexual attention becomes a condition of employment, work, education, study or benefits. Sexual harassment may also involve relationships among equals, as when repeated

sexual advances or demeaning verbal or physical behavior have a detrimental effect on a person's ability to study or work at the College.

Sexual harassment includes unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of sexual nature made as a condition of employment, instruction or participation in College activities, that unreasonably interfere with work or academic performance or that create an intimidating, hostile or offensive environment. Thus, unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of sexual nature constitute sexual harassment when submission to or rejection of this conduct explicitly or implicitly affects an individual's employment, academic performance or living conditions, unreasonably interferes with an individual's work or academic performance or creates an intimidating, hostile or intimidating environment. Circumstances of sexual harassment can include, but are not limited to:

1. The victim/harasser being a man or a woman
2. The victim being of the same or opposite sex
3. The harasser being the victim's supervisor, a supervisor in another area, an agent of the College, a co-worker or a non-employee
4. The harasser being the victim's instructor, an instructor in another area or department, a fellow student or a non-student.
5. The victim being affected by the offensive conduct, though not necessarily the one being harassed
6. The harasser's conduct being unwelcome

Examples of sexual harassment include, but are not limited to these actions:

1. Physical assault, indecent exposure, physical contact of a sexual nature, or realized sexual encounters;
2. Direct or implied threats that submission to sexual advances will be a condition of employment, work status, promotion, grades, or letters of recommendation;
3. Direct propositions of a sexual nature;
4. A subtle pressure for sexual activity or a pattern of conduct intended to disconcert, distress, or humiliate through sexual comments or sexually explicit statements, questions, jokes, anecdotes, or sexually explicit visual/auditory material;
5. A pattern of conduct that would disconcert, distress, or humiliate a reasonable person of the same gender as the person to whom the conduct was directed. The pattern of conduct could include one or more of the following actions: unnecessary touching, unwanted staring, patting, hugging, or brushing against a person's body; remarks of a sexual nature about a person's clothing or body; remarks about sexual activity, or speculations about previous sexual experience.

2.1.2.2.1 Redress of Complaints

Complaints that may be addressed under this policy include complaints based on the conduct of College students, faculty, administrative and staff members and other persons acting in official College capacities. Individuals who believe that they have been harassed or discriminated

against should address their concerns to the appropriate administrative official at the College as set forth below.

2.1.2.2.2 Employees

Bethany College expects that its employees will act responsibly to establish a pleasant and friendly work environment. However, if an employee has been subjected to any other form of harassment and/or discrimination, the employee shall:

1. Clearly inform the harasser that the conduct is unwelcome and offensive and request that it be discontinued immediately.
2. Advise the harasser that a complaint will be lodged if the conduct continues.
3. Document all incidents of harassment and, whenever possible, identify witnesses.
4. Advise their immediate supervisor of the harassment. In the event the supervisor is the aggrieved party, report the complaint to the Director of Personnel Services.

College Responsibility:

1. The supervisor is to report any allegation of harassment to the Director of Personnel Services, who is responsible for investigating all complaints.
2. The Director of Personnel Services will conduct a conference with the complaining employee within five (5) working days of notification of the complaint and complete the investigation within ten (10) working days from the date of the conference.
3. The Director of Personnel Services will make a demonstrable effort to determine the facts pertinent to the complaint by insuring that a thorough, rigorous and prompt investigation is conducted. Findings and recommendations will be reviewed by the administrative officer who supervises the Director of Personnel prior to the final resolution.
4. Upon conclusion of the investigation and determination of the merits, the Director of Personnel Services will insure that an appropriate representative of management meet with the complainant to discuss the results of the investigation.
5. The Director of Personnel Services will monitor the results of this procedure for compliance with standards for investigation and resolution of EEO related matters.

Additionally:

1. A demonstrable effort will be made to complete investigations within ten (10) working days. In the event the investigation is inconclusive or requires more time to complete, the complainant will be notified by the Director of Personnel Services.
2. A demonstrable effort will be made to maintain confidentiality of the complaint and the investigation.
3. No employee shall be retaliated against for employing the procedure outlined in this policy. Such retaliation, if discovered, will be considered cause for disciplinary action, up to and including discharge.
4. Any employee who knowingly makes a false claim of harassment and/or discrimination will be subject to disciplinary action, up to and including, discharge.

2.1.2.2.3 Students

Students who believe that they are being harassed by anyone based on race, religion, color, national origin, gender, sexual orientation, age, disability, disabled veteran status, or on any other basis that would be in violation of any applicable federal, state, or local law, shall report this, as soon as possible, to the Dean of Students, a College counselor, or another trusted representative of Bethany College. These individuals then promptly contact the Affirmative Action Officer (AAO), who sees that these matters are investigated and, where appropriate, disciplinary action is taken. If a student believes that the matter cannot be discussed with representatives of the Office of Student Life, the student shall arrange for a conference with the AAO to discuss the problem.

Harassment and/or discrimination by people not associated with the College or College employees in connection with their work or the work of students may also be a violation of this policy. Any student or employee who becomes aware of any such harassment shall report it to supervisors (in the case of employees) or to the Office of Student Life (in the case of students), or in either case to the AAO. Supervisors and the Office of Student Life notify the AAO of any such claims. The AAO is responsible for investigating such claims. Appropriate action is taken against violations of this policy.

2.1.2.3 Appeals

If either party disputes the findings or is dissatisfied with the procedures or recommendations of the investigator's report, the party may appeal such findings by filing a written appeal with the President of the College within 15 calendar days of receipt of the written report. The President of the College will review the record of the matter and will reach a final determination as to any action to be taken within 10 calendar days of receipt of the appeal.

The determination of the President of the College is final and may only be addressed further by petition to the appropriate grievance committee of the party who remains dissatisfied or who continues to be accused. Rules governing the grievance committees of faculty, staff, administrators and students are provided in their respective volumes in this Policy Manual.

2.1.2.4 Anti-Retaliation Statement

Retaliation of any kind against anyone filing a complaint of harassment or discrimination is prohibited. Initiating a complaint of harassment or discrimination will not affect a complainant's employment, compensation or work assignments or, in the case of students, grades, class selection, or any other matter pertaining to student status.

Distinguishing between harassing or discriminatory conduct and conduct that is purely personal or social without a harassing or discriminatory work or educational effect requires a determination based on all of the facts pertaining to the situation. False accusations of harassment or discrimination can seriously injure innocent people. Initiating a false harassment or discrimination complaint or initiating a harassment or discrimination complaint in bad faith may result in disciplinary action. A finding for the accused does not constitute a finding the complaint was in bad faith.

2.1.2.5 Hostile Environment in Absence of Complaint

If the College has credible notice – either direct or indirect – of possible discrimination, harassment, or sexual harassment of a member of its community or notice of a sexually hostile, harassing or discriminatory environment, then it will take immediate and appropriate steps to investigate or otherwise determine what occurred and take steps reasonably calculated to end any harassment and/or discrimination, eliminate a hostile environment if one has been created, and prevent harassment and/or discrimination from occurring again.

2.1.3 Consensual Relations

The potential for abuse or the appearance of abuse and the inherent differential in authority prompt the College to prohibit any faculty member or employee of the College from engaging in a romantic and/or sexual relationship or in romantic and/or sexual conduct with any student of either gender currently enrolled at Bethany College.

Likewise, the potential for abuse or the appearance of abuse and the inherent differential in authority prompt the College to prohibit any member of the College community from engaging in a romantic and/or sexual relationship or in romantic and/or sexual conduct with any employee of either gender whom that person supervises or evaluates in any way.

It should be noted that exceptions to any of these prohibitions will be considered by the Vice President for Academic Affairs and Dean of the Faculty or the Director of Personnel Services on a limited, case-by-case basis. If you have any questions about the application or effect of this policy to an existing or potential relationship, it is your duty to consult with the Vice President for Academic Affairs and Dean of the Faculty or the Director of Personnel Services.

In keeping with this policy, if charges of sexual harassment are made, the existence of a consensual relationship in any of the contexts stated above shall not be a defense in any proceeding resulting from such charges.

Individuals who violate this provision are subject to the range of discipline listed in the College's sexual harassment policy.

This policy is in addition to existing College rules and regulations and does not alter or modify any existing policy.

2.1.4 Family Educational Rights and Privacy Act

The Federal Educational Rights and Privacy Act of 1974, last amended on December 2, 2011, protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. The Higher Education Reauthorization Act of 1998 allows, but does not require, colleges and universities to contact the parents of students in disciplinary cases involving drugs and alcohol (please see the Parental Notification Policy in Volume VII, Subsection 7.2.15). The Family Education and Privacy Act was enacted by Congress to protect the privacy of student educational records. This privacy right is a right vested in the student.

Pursuant to FERPA, eligible students (those over 18 years of age) and parents¹ have the right to inspect and review their education records maintained by the school. Bethany College is not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Bethany College may charge a fee for copies.

There are some records to which the student has no right of access. These are:

1. Professional mental health treatment records to the extent necessary, in the judgment of the attending physician or professional counselor, to avoid detrimental effects to the mental health of the student or of others. These records may, however, be reviewed by a physician or other appropriate professional of the student's choice.
2. Financial information furnished by the student's parents in support of an application for financial aid.
3. Confidential letters of recommendation that were placed in the student's file prior to January 1, 1975.
4. Confidential letters of recommendation concerning admission, employment, or honorary recognition, for which the student has waived access. (The College may not require a student to sign a waiver in order to obtain services, but a person writing a recommendation may insist on a waiver as a condition for writing it.).
5. Personal notes made by a faculty member or counselor that are accessible only to that person and are not shared with others.
6. Materials in any admissions files, until the student has been admitted to, and has attended the College.

Eligible students have the right to request that Bethany College correct records that they believe to be inaccurate or misleading. If the College decides not to amend the record, the student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the student has the right to place a statement with the record setting forth the student's view about the contested information.

Bethany College is not required to consider requests for amendment under FERPA that:

1. Seek to change a grade or disciplinary decision; or
2. Seek to change the opinions or reflections of a school official or other person reflected in an education record.

Generally, schools must have written permission from the student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR §99.31):

¹ According to the Buckley Amendment, information contained in the educational records of students who are eighteen years of age or older or enrolled in post-secondary institutions may be sent to the parents without the written consent of the student only if the student is a financial dependent of the parents. (The term dependent is defined in Section 152 of the Internal Revenue Code as an individual's son, daughter, stepson, or stepdaughter of a taxpayer who receives over half of the individual's support from the taxpayer during the given calendar year.)

1. School officials with legitimate educational interest;
2. Other schools to which a student is transferring;
3. Specified officials for audit or evaluation purposes;
4. Appropriate parties in connection with financial aid to a student or the result of a judicial or quasi-judicial hearing;
5. Organizations conducting certain studies for or on behalf of the school;
6. Accrediting organizations;
7. To comply with a judicial order or lawfully issued subpoena;
8. Appropriate officials in cases of health and safety emergencies; and
9. State and local authorities, within a juvenile justice system, pursuant to specific State law.

Bethany College may disclose, without consent, “directory” information. This includes: (1) name, (2) permanent and local address and telephone, (3) The division/department attended at the College, (4) class level, (5) major field, (6) dates of attendance at the College, (7) degree received and date awarded, (8) honors and awards received, (9) participation in recognized activities, (10) previous school(s) attended, and (11) height and weight of members of intercollegiate athletic teams. The College may disclose directory information for any purpose, without the prior consent of a student, unless the student has forbidden its disclosure in writing. Students wishing to prevent disclosure of the designated directory information must file written notification to this effect with the Registrar’s Office. In the event that such written notification is not filed, the College assumes that the student does not object to the release of the directory information.

At the College, information about student rights and responsibilities under FERPA is available at the Office of the Registrar.

Students have the right to file a complaint with the Family Policy Compliance Office, Department of Education, 600 Independence Ave., SW, Washington, DC 20202-4605, concerning any alleged failure by the College to comply with FERPA.

2.1.4.1 Student Record Release under the Solomon Amendment

The Solomon Amendment (10 USC §983, effective January 2000) is a federal law that mandates colleges and universities receiving federal financial aid funding to provide student recruiting information upon request to military recruiting organizations. The request and information released by the College is limited to military recruiting purposes only. The request for information must be in writing on letterhead that clearly identifies the military recruiting organization. Military recruiters must be from one of the following military organizations:

1. Air Force;
2. Air Force Reserve;
3. Air Force National Guard;
4. Army;
5. Army Reserve;

6. Army National Guard;
7. Coast Guard;
8. Coast Guard Reserve;
9. Navy;
10. Navy Reserve;
11. Marine Corps; and
12. Marine Corps Reserve.

The release of student recruiting information follows the FERPA guidelines defining student directory information (see above). Students are not permitted under federal law to restrict the release of this information specifically to military organizations, but if students withhold the release of directory information generally, then the College may not release this information to military organizations. The directory information released is limited to the current semester or the previous semester. If the request is received between semesters, the requestor must specify previous semester or upcoming semester. Further, students must be in an enrolled status (incomplete and complete registration status).

2.1.5 Institutional Policies on Disability (ADA)

The College complies with the Americans with Disabilities Act for its employees, students and campus visitors as required by law.

2.1.5.1 Employees with Disabilities

The Americans with Disabilities Act of 1990 (ADA) makes it unlawful to discriminate in employment against a qualified individual with a disability. Under ADA, a person has a disability if the person has a physical or mental impairment that substantially limits a major life activity. The ADA also outlaws discrimination against individuals with disabilities in State and local government services, public accommodations, transportation and telecommunications. This part of the law is enforced by the U.S. Equal Employment Opportunity Commission (EEOC) and State and local civil rights enforcement agencies that work with the Commission.

Further information is available from the Personnel Services Department.

2.1.5.2 Students with Disabilities

Those students needing special accommodations for housing, meals, classes, or other scholastic needs shall provide documentation from their primary care provider as to the specific nature of those needs, and how Bethany College can work with the student to provide the best possible environment. If a student does not disclose the need for special accommodations, the College is not responsible for those needs. The Office of Student Life will work with those students who disclose any special needs to the College to work through appropriate accommodations.

2.1.6 Document Retention

The records of Bethany College and its subsidiaries (hereafter the “College”) are important assets. College records include essentially all records you produce as an employee, whether paper or electronic. A record may be as obvious as a memorandum, an e-mail, a contract or something not as obvious, such as a computerized desk calendar, an appointment book or an expense record.

The law requires the College to maintain certain types of business records, usually for a specified period of time. Failure to retain those records for those minimum periods could subject you and the College to penalties and fines, cause the loss of rights, obstruct justice, spoil potential evidence in a lawsuit, place the College in contempt of court, or seriously disadvantage the College in litigation.

The College expects all employees to fully comply with any published records retention or destruction policies and schedules, provided that all employees should note the following general exception to any stated destruction schedule: If you believe, or the College informs you, that College records are relevant to litigation, or potential litigation (i.e., a dispute that could result in litigation), then you must preserve those records until the College’s General Counsel determines the records are no longer needed. That exception supersedes any previously or subsequently established destruction schedule for those records. If you believe that exception may apply, or have any question regarding the possible applicability of that exception, please contact the Senior Vice President.

From time to time the College establishes retention or destruction policies or schedules for specific categories of records in order to ensure legal compliance, and also to accomplish other objectives, such as preserving intellectual property and cost management. Several categories of documents that bear special consideration are identified below. While minimum retention periods are suggested, the retention of the documents identified below and of documents not included in the identified categories should be determined primarily by the application of the general guidelines affecting document retention identified above, as well as any other pertinent factors.

2.1.6.1 Student Records

State and federal statutes require the College to keep certain records pertaining to student admission, academic, financial aid and other records maintained by the Office of the Registrar. The College should also keep any correspondence relating to students written to or from the College or individual employees under applicable state and federal statutes. Student records should be retained in perpetuity.

2.1.6.2 Accounting

Tax records include, but may not be limited to, documents concerning payroll, expenses, business costs, accounting procedures, and other documents concerning the College's revenues,

expenses and property. Accounting records should be retained for at least six years from the date of filing the applicable return.

2.1.6.3 Employment Records/Personnel Records

State and federal statutes require the College to keep certain recruitment, employment and personnel information. The College shall also keep personnel files that reflect performance reviews and any complaints brought against the College or individual employees under applicable state and federal statutes. The College shall also keep all final memoranda and correspondence reflecting performance reviews and actions taken by or against personnel in the employee's personnel file. Employment and personnel records should be retained for a minimum of six years after the employee terminates from the College, and in certain instances such records may, at the discretion of the College, be retained indefinitely.

2.1.6.4 Board and Board Committee Materials

Meeting minutes should be retained in perpetuity in the College's minute book. A clean copy of all Board and Board Committee materials should be kept for no less than three years by the College.

2.1.6.5 Press Releases/Public Filings

The College should retain permanent copies of all press releases and publicly filed documents under the theory that the College shall have its own copy to test the accuracy of any document a person or governmental agency can theoretically produce against that College.

2.1.6.6 Legal Files

The College's General Counsel should be consulted to determine the retention period of particular documents, but legal documents shall generally be maintained for a period of ten years.

As to the contracts, leases, licenses and other legal documents, these documents should be kept for at least ten years beyond the life of the agreement (see 2.1.6.9 below).

2.1.6.7 Recruiting and Promotional

The College should keep final copies of recruiting and promotional documents for the same period of time it keeps other business files, generally three years.

As to the contracts, leases, licenses and other legal documents, these documents should be kept for at least six years beyond the life of the agreement (see 2.1.6.9 below).

2.1.6.8 Development/Intellectual Property and Trade Secrets

Development documents are often subject to intellectual property protection in their final form (e.g., patents and copyrights). The documents detailing the development process are often also of value to the College and are protected as a trade secret where the College:

1. Derives independent economic value from the secrecy of the information; and
2. The College has taken affirmative steps to keep the information confidential.

The College should keep all documents designated as containing trade secret information for at least the life of the trade secret.

2.1.6.9 Contracts

Final, execution copies of all contracts entered into by the College should be retained. The College should retain copies of the final contracts for at least ten years beyond the life of the agreement, and longer in the case of contracts and other materials filed with governmental and regulatory agencies.

2.1.6.10 Electronic Mail

The College is the owner of the electronic mail system to which access is provided for the performance of the employee's duties. Email is to be used by employees for business purposes only, unless the employee is contractually authorized to use the system for non-College purposes. (See 2.4.2.5)"

E-mail that needs to be saved should be either:

1. Printed in hard copy and kept in the appropriate file; or
2. Downloaded to a computer file and kept electronically or on disk as a separate file.

The retention period depends upon the subject matter of the e-mail, as covered elsewhere in this policy.

Failure to comply with this Document Retention Policy may result in disciplinary action against the employee, including suspension or termination. Questions about this policy should be referred to General Counsel who is in charge of administering, enforcing and updating this policy.

2.2 Health Related Policies

2.2.1 Alcohol and Drug Policies for Students

2.2.2 Alcohol and Illegal Drugs

Bethany College complies with federal, state, and local laws which regulate the possession, use, and sale of alcoholic beverages and controlled substances. The College also complies with all regulation of the Drug Free Work Place Act of 1988 and the Drug Free Schools and Communities Act of 1998. The following activities, among others as detailed in the Bethany College Alcohol Policy, are prohibited on College premises or at College sponsored activities:

1. Distributing, possessing, or using any illegal drug or controlled substance;

2. Providing alcoholic beverages to individuals under 21 years of age or possessing alcoholic beverages by individuals under 21 years of age; and
3. Illegally possessing of open container of alcoholic beverage, public intoxication, driving while intoxicated, or under the influence of illegal drugs or controlled substances, and drinking alcoholic beverages in an unlicensed public place.

Every Bethany student must agree to abide by the policies and standards of the College as defined by the most current edition of the *Student Handbook* and *Code of Student Conduct*. Moreover, Bethany College and the Town of Bethany have policies that specify compliance with West Virginia State Law. It is illegal for anyone under the age of 21 to possess or consume alcoholic beverages; it is illegal to knowingly provide alcoholic beverages to anyone under the age of 21; and it is illegal for anyone of any age to possess, use, or distribute illicit drugs.

Since the primary objective of Bethany College is to contribute to the growth and development of students, it strives to maintain an environment free from conditions that may hinder that development. The use or misuse of alcohol often inhibits a student from achieving optimal academic success, reduces productive participation in a wide variety of enriching activities, and increases factors creating risks to healthy living. Therefore, Bethany College has adopted strict alcohol use policies, as seen in the *Student Handbook* and *Code of Student Conduct*.

2.2.2.1 Alcohol Policy

1. The possession or consumption of alcoholic beverages by any student under the age of 21 is strictly prohibited.
3. Knowingly providing alcoholic beverages to anyone under the age of 21 is prohibited.
4. The possession or consumption of alcoholic beverages in any public area is prohibited unless permission has been granted for a social event by the Office of Student Life, Department of Safety and Security and Director of Student Activities. Public areas include, but are not limited to, athletic facilities, campus grounds, academic buildings, and common lounge areas.
5. Use or possession of alcoholic beverages by any student, regardless of age, in any residential facility designated as alcohol free by the Dean of Students is prohibited; including those designated as housing freshmen.
6. Persons aged 21 and over are permitted to possess and consume alcoholic beverages in moderation and in the privacy of their individual rooms or apartments, if in buildings NOT designated as alcohol-free. Students may be permitted to have in their possession, a maximum amount of one six pack or less of beer or four bottles of wine coolers per person for personal consumption.

7. The purchase or use of a bulk quantity of alcoholic beverages, except when purchased from, supplied and staffed by licensed third party vendors, is prohibited in any facility. Bulk quantity is defined as kegs, pony kegs, beer balls, or cases. Any quantity of beer or wine coolers in excess of the amount stated in previous guideline is considered a bulk quantity.
8. Excessive Drinking, on-campus or off-campus, is considered irresponsible use of alcohol and a violation of the College's alcohol policies. *Excessive drinking* includes, but is not limited to, intoxication, binge drinking, drinking games (such as beer pong, flip cup), and drinking to the point of physical illness or incapacitation.
9. Students are not permitted to display alcohol-related paraphernalia in plain view (empty bottles, signs, etc.) at any time. Alcoholic beverage containers of any kind should not be in view of the public. Violations of this regulation may result in disciplinary action to the housing unit and/or the individuals involved.
10. Serving, possessing, or consuming hard liquor or grain alcohol is strictly forbidden.
11. Alcoholic beverages (beer or wine only) may be served at social events, only through third party vendors, approved by the Office of Student Life. The officers of a student organization sponsoring a social event where alcoholic beverages are to be served are required to sign a statement accepting full responsibility for compliance with the laws of the State of West Virginia and with Bethany College policies. Registration forms for events and guidelines for parties are available in the Office of Student Life and at <http://www.bethanywv.edu/students/student-handbook/social-event-policies-and-procedures/>.
12. Students and student organizations are responsible for the conduct of their guests and for compliance with State law and College policy.
13. Violations of the alcohol policy will result in student disciplinary action and/or legal action.

2.2.2.2 Alcohol Amnesty Policy

Student health and safety are of primary concern at Bethany College. As such, in cases of intoxication, alcohol poisoning, or other drug-related medical emergencies, Bethany encourages individuals to seek medical assistance for themselves or others.

1. Students who seek emergency medical attention for themselves related to consumption of drugs or alcohol will not be charged with violations of the Bethany College Code of Student Conduct related to that consumption provided that the student subsequently completes an assessment and any recommended treatment from the Dean of Students, Director of Student Engagement and Responsibility, the Counseling Services Office, or their designee within 15 business days. Failure to complete this assessment may result in charges being filed.

2. Students who seek emergency medical attention for someone else will not be charged with violations of the Bethany College Code of Student Conduct related to consumption of alcohol or drugs, provided that the student subsequently completes an educational task provided by Dean of Students, Director of Student Engagement and Responsibility, the Counseling Services Office, or their designee within 15 business days. Failure to complete this task may result in charges being filed.

This Policy applies only to those students who seek emergency medical assistance in connection with an alcohol or drug-related medical emergency and does not apply to individuals experiencing an alcohol or drug-related medical emergency who are found by College employees (e.g., Campus Security, Residential Life Staff, and College Administrators).

This Medical Amnesty Policy does not excuse or protect students who repeatedly violate the College's Code of Student Conduct. In cases where repetitive violations of the College's Code of Student Conduct occur, Bethany College reserves the right to take judicial action on a case-by-case basis regardless of the manner in which the incident was reported. Additionally, the College reserves the right to adjudicate any case in which the violations are flagrant violations of the Code of Student Conduct.

The Dean of Students, Director of Student Engagement and Responsibility, or their designee reserves the right to contact any student to discuss an incident whether or not the Amnesty Policy is in effect.

Bethany College reserves the right to notify parents as per The Parental Notification Policy found in the Code of Student Conduct.

2.2.2.3 Illegal Drug Policy

1. It is illegal for anyone of any age to possess, use, or distribute illicit drugs.
2. Possession of prescription drugs by those other than the named prescription holder is prohibited.
3. Distribution of prescription drugs to anyone other than the named prescription holder is prohibited.
4. Possession with intent to distribute will result in immediate expulsion from Bethany College.
5. Possession and/or consumption will result in immediate suspension for at least one semester from Bethany College.
6. Possession of drug paraphernalia is prohibited and will result in student disciplinary action and/or legal action.

7. Violations of the Illegal Drug Policy will result in student disciplinary action and/or legal action.

2.2.2.4 Employee Drug and Alcohol Policies

Bethany College is committed to providing a safe, healthy, and efficient working environment for all employees. To help achieve this goal, employees are prohibited from:

1. Possessing, distributing, selling, manufacturing, or being under the influence of any illegal substance;
2. Consuming alcoholic beverages while on College premises (except at a College function where the alcohol is provided by the College), in College vehicles, or bringing alcohol to work [unless specifically approved]; and
3. Abusing prescription drugs or possessing prescription drugs that have not been properly prescribed for the employee by a physician.

Use of drugs may be detectable for several days or weeks, or even longer. Detection of such drugs or the presence of alcohol is considered being “under the influence.” Refusal to submit to a drug and/or alcohol screen upon the College’s lawful request is grounds for immediate termination.

Employees using prescription drugs according to a physician’s instructions or using over-the-counter drugs for medicinal purposes shall, in the event such drugs may impair their physical, mental, emotional, or other faculties, notify the Director of Personnel Services.

The College’s substance abuse program includes several components to support its efforts to remain drug-free, including:

1. Supervisory training;
2. Employee awareness program;
3. Drug testing for accidents involving injury and/or property damage; and
4. Drug testing when a supervisor reasonably suspects that an employee is “under the influence” during working hours.

All information related to drug and/or alcohol screening is to be kept strictly confidential. The information will be kept in each employee’s medical file, which is maintained separately from the employee’s personnel file. These medical files will be kept locked and secured, and access will be limited to the Personnel Services Department. Under no circumstances shall the results of a drug and/or alcohol screen be discussed with individuals who do not have a work-related need to know.

If employees are involved in an accident during working hours causing damage to property or which requires medical attention away from the premises, they may be screened to determine whether they test positive for drugs and/or alcohol.

If a supervisor suspects that an individual is at work and under the influence of alcohol and/or drugs, the supervisor shall notify the Director of Personnel Services and/or an officer of the College to seek authorization to test the employee. The supervisor will be granted permission to have the employee tested if sufficient objective symptoms exist to indicate the employee may be under the influence of drugs and/or alcohol.

While the College does not condone the abuse of alcohol, prescription drugs, and/or use of illegal drugs, Bethany College does recognize that addiction to drugs and/or alcohol can be treated. If an employee recognizes a personal addiction or abuse problem and seeks assistance from the College in advance of detection, the organization will assist the employee in seeking treatment. The confidential nature of the employee's counseling and rehabilitation for drug and/or alcohol abuse will be preserved.

2.2.3 Exposure to Blood Borne Pathogens Policies

2.2.3.1 Infection Risk Exposure Control Plan

In accordance with the Occupational Safety and Health Administration's (OSHA) federal standard for Blood Borne Pathogens, those members of the campus community identified at high risk for the transmission of infectious disease include some department heads, members of the Physical Plant, Athletic Department, the Wellness Center, the Department of Safety and Security, and Student Life.

These members of the campus community must comply with all segments of this policy. Failure to do so may result in discipline leading up to and including dismissal.

Universal precautions shall be observed to prevent contact with blood or other potentially infectious materials. Under circumstances in which differentiation between body fluid types is difficult or impossible, all body fluids shall be considered potentially infectious materials.

2.2.3.1.1 Labeling

Warning labels shall be attached to containers of regulated waste; refrigerators and freezers containing blood or other potentially infectious material; and other containers used to store, transport or ship blood or other potentially infectious materials.

Labels required by this section shall include the biohazard legend. Red bags or containers may be substituted for labels where appropriate. Red bags or labeled waste must be disposed of in accordance with applicable regulations.

2.2.3.1.2 Hazard Control

All identified members of the campus community must take precautions to prevent injuries caused by needles, scalpels, and other sharp instruments after use in procedures. To prevent needle stick injuries, needles will not be recapped, purposely bent or broken by hand. After they are used, disposable syringes and needles, scalpel blades, and other sharp items must be placed in puncture resistant containers for disposal. The puncture resistant containers shall be located as close as practical to the use area. Observe containers regularly and replace when full.

Eating and drinking are not allowed in areas where there is a reasonable likelihood of occupational exposure to blood or body fluids. Each immediate supervisor shall designate work areas and eating areas.

2.2.3.1.3 Personal Protective Equipment

The employer shall clean, launder and dispose of equipment at no cost to the employee.

2.2.3.1.4 Dispensable Gloves (Single Use)

Replace when torn, punctured or contaminated. Replace when their ability to function as a barrier is compromised. Do not wash or decontaminate for reuse.

2.2.3.1.5 Masks, Eye Protection and Face Shields

Wear combination of masks with eye protection devices whenever splashes, spray, splatters or droplets of blood or other potentially infectious materials may be generated.

2.2.3.1.6 Gowns, Aprons, Protective Body Clothing

Wear in occupational exposure situations. The type and characteristic depends upon the task and degree of exposure anticipated.

2.2.3.1.7 Cleaning Schedule

All equipment and environmental and working surfaces shall be cleaned and decontaminated after contact with blood or other potentially infectious materials.

Contaminated work surfaces shall be immediately decontaminated with an appropriate disinfectant after completion of procedures, or as soon as feasible when surfaces are overtly contaminated or after any spill of blood or other potentially infectious material and at the end of the work shift if the surface may have been contaminated since the last cleaning.

All bins, pails, cans and similar receptacles intended for reuse, which have a reasonable likelihood for becoming contaminated with blood or other potentially infectious materials shall be inspected and decontaminated immediately or as soon as feasible upon visible contamination.

Broken glassware that may be contaminated shall not be picked up directly with the hand. It shall be cleaned up using mechanical means, such as brush and dustpan, tongs or forceps.

2.2.3.2 Signs and Labels

Warning labels shall be affixed to containers of infectious waste to assure that members of the campus community are aware that hazardous materials are in or near the work area.

2.2.3.3 Post-Exposure Procedures

Immediate response procedures for Exposure to Blood or Bodily Fluids are set forth as Appendix A. Students having direct exposure to blood or bodily fluids must report the incident immediately to the Safety and Security Department.

The College must establish and maintain confidential, accurate records for each member of the campus community with regards to exposure.

If an employee of the College reports an exposure incident (specific eye, mouth, other mucous membrane, non-intact skin or parenteral contact with blood or other potentially infectious materials that resulted from the performance of job duties), the following are to be provided free of charge: a confidential post-exposure medical evaluation, medical follow-up, including post exposure prophylaxis, and counseling.

The College must provide, for the collection of the blood to establish HBV and HIV, serological status from the exposed member of the campus community and, if applicable, the source individual. (The person may not grant the collection of blood for the HIV testing if so desired. This also applies to the source.)

Documentation of the exposure incident and medical records must be developed.

2.2.3.3.1 Investigation of the Exposure Incident

All exposure incidents must be reported by the member of the campus community immediately to the Vice President for Academic Affairs and Dean of the Faculty and the Director of Personnel Services.

All exposure incidents will be reported to the supervisor by the investigator at the time of notification.

Information that must be obtained:

1. Type of exposure (blood, mucus, body fluids, vomit);
2. Location of the incident;
3. Time and date of incident exposure;
4. The person that the member of the campus community was exposed to;
5. Safety equipment member of the campus community was wearing at the time of the exposure;
6. Other person(s) who may have been exposed and/or who may have been providing treatment;
7. Date and time reported;
8. Name of person who documented the report of exposure; and
9. Proper disposition of contaminated equipment (laundry or disposal as appropriate).

A copy of the medical evaluation or the exposure results will be sent to the exposed person by the Personnel Services Department within 15 days after the completion of the evaluation.

2.2.3.4 Medical Records Maintenance

Medical Records will be established for each identified person, and the Personnel Services Office will retain these records for at least the duration of employment. These records must include the following information:

1. Employee's name and social security number;
2. Record of hepatitis B vaccination status, including dates of vaccination or proof declination; and
3. A copy of all results of medical exams, testing, etc. done in connection with post-exposure follow-up.

The medical record is strictly confidential and cannot be disclosed or reported without the express written consent of the person to which the report pertains.

2.2.3.5 Training Records Maintenance

Training records shall be maintained by the Director of Personnel Services for three years from the date on which the training occurred, and contain the following information:

1. Dates of training sessions;
2. A summary outline of the contents of the session;
3. The names and qualifications of persons conducting the sessions; and
4. The names and job titles of all persons attending.

2.2.4 Hazard Communication

The Employee Right to Know Act of 1983 defines handling procedures for working with and handling hazardous and toxic chemicals. The College complies with the provisions of the Act. A copy of the Act in its entirety may be obtained from the Personnel Services Department. The following summarizes the provisions of the Act:

1. Provides for occupational safety and health;
2. Defines hazardous substance;
3. Defines harmful physical agent;
4. Requires employers using hazardous substances and harmful physical agents to provide employees with certain training information;
5. Requires that hazardous substances and harmful physical agents must be labeled under certain circumstances;
6. Creates a right to refuse work under conditions violating any applicable State Occupational Safety and Health Act;
7. Creates a right to refuse to work with a hazardous substance or harmful physical agent under certain conditions; and
8. Provides penalties.

Please consult with the Personnel Services Department for additional information.

2.2.5 Health Insurance Portability and Accountability Act (HIPAA)

The College complies with all laws that govern employee and students' medical records, their review and their dissemination. For a copy of the College's entire HIPAA policy, please visit the College's website at: <http://www.bethanywv.edu/files/6344HIPAApolicy.pdf>.

Bethany College will not require individuals to waive their health privacy rights as a condition for treatment, payment, enrollment in the health plan, and/ or eligibility for benefits.

Bethany College will not intimidate, threaten, coerce, discriminate against, or take other retaliatory action against an individual for exercising health privacy rights.

2.2.6 Hepatitis B Vaccine (HBV)

Hepatitis B Vaccine (HBV) vaccinations will be offered on a voluntary basis to all identified persons. These vaccinations will be offered free of charge by the College.

Education will be provided to inform identified persons about the Hepatitis B Vaccine and how it can protect their health.

Each person will be required to sign an informed consent form prior to receiving the vaccination as provided in Appendix B. Identified individuals who refuse the vaccine will be required to sign the declination set forth at the end of Appendix B.

The person will receive a schedule for follow-up injections at one month and six months. A reminder will be sent before each scheduled injection. It is each individual's responsibility to report for the injection.

Additional information regarding the Hepatitis B vaccine is set forth in Appendix B.

2.2.7 Serious Disease

Employees, faculty, or students with infectious, long-term, life-threatening, or other serious diseases may continue their work or attendance at the College as long as they are physically and mentally able to perform the duties of their job or meet their academic responsibilities without undue risk to their own health or the health of other employees or students.

Serious diseases for the purposes of this policy include, but are not limited to, cancer, heart disease, multiple sclerosis, hepatitis, tuberculosis, human immunodeficiency virus (HIV), and acquired immune deficiency syndrome (AIDS). The College will support, where feasible and practical, educational programs to enhance employee and student awareness and understanding of serious diseases.

The mere diagnosis of HIV, AIDS, AIDS-Related Complex (ARC), or AIDS virus antibodies, or any other serious communicable disease is not, in itself, sufficient basis for imposing limitations, exclusions or dismissal. Harassment of individuals with or suspected of being infected with any disease is not acceptable behavior at the College and will be strictly censored. The diagnosis of the condition, as any other medical information, is confidential.

In working with faculty, employees or students diagnosed with HIV, AIDS or any other serious communicable disease, the College will proceed on a case-by-case basis. With the advice of medical professionals, these factors will be considered:

1. The condition of the person involved and the person's ability to perform job duties or academic responsibilities;
2. The probability of infection of co-worker's or other members of the College community based on the expected interaction of the person in the College setting;
3. The possible consequences to co-workers and other members of the College community, if infected;
4. Possible reasonable accommodations and modifications to the individual's job or other obligations to take account of the condition;

2.3.4 Sexual Assault Response Commitment

Sexual assaults, including date rape, domestic violence and stalking, are a very serious concern of the College. If you feel you are the victim of any of these offenses on campus, the Bethany College Office of Safety and Security at Bethany College is committed to the following:

- We shall meet with you privately to take your statement for our official report. We will meet with you in a campus venue of your choosing.
- We shall not release your name or description to the public or press.
- We shall not prejudge you, blame you or make comments to minimize the gravity of what occurred.
- We shall treat you and your case with courtesy, sensitivity, dignity, understanding and professionalism.
- If you feel more comfortable talking with a female or male officer we shall do our best to accommodate your request. An advocate from the Dean of Students' Office will be available to assist you through the process.
- We shall assist you in arranging for any hospital treatment or other medical needs.

- We will continue to be available for you, to answer your questions, to explain the systems and processes involved (prosecutor, court, etc.) and to listen if you need to talk.
- We take all cases seriously regardless of your gender, national origin, sexual orientation or gender identity, and regardless of the suspect's gender, national origin, sexual orientation or gender identity.

2.3.5 Procedure for On-Campus Disciplinary Action

In all cases of alleged sex offense, domestic violence, dating violence or stalking that are addressed within the College's Code of Conduct policies, both the accuser and the accused are entitled to have witnesses to support their position and an advisor as outlined in the Student Life Policies (Vol. 7). Both the accuser and the accused shall be informed of the outcome and any sanctions that are imposed against the accused. These outcomes and/or sanctions apply only to a student accused. Both the accused and the victim may appeal the decision.

What to do if someone tells you they have been a victim of sexual assault, domestic violence, dating violence or stalking:

- *Believe and Accept* – This is the most important factor in a person's recovery.
- *Listen* – There is no need to search for reasons, just care.
- *No More Violence* – The victim has already dealt with one uncontrollably violent person, don't give her/him another one to deal with. Be there for the victim.
- *Give the Victim Control* – Let the victim make even the smallest of decisions, and ask what her/his most outstanding concern is. This concern should be addressed first.
- *Realize Your Limitations* – You are not a counselor, you probably don't have the answers, and you don't have to.

Steps to Follow:

- *Ascertain the physical wellbeing of the victim*
Ask if she/he is physically all right. The victim may be in shock and unaware of her/his injuries, so explore this issue beyond initial questioning and observation if you feel it is necessary. Don't assume that a person who has experienced the trauma of sexual assault will necessarily react in an openly emotional manner. Many times the victim will appear to be calm, and occasionally even emotionally removed from the incident.
- *Ensure privacy*
Make sure the victim has privacy when she/he is speaking with you. Having anyone other than the victim involved in the discussion should be the victim's decision. Ask if the victim would like someone, such as a roommate or friend,

with her/him during your conversation. If so, discuss the importance of confidentiality with that individual.

- *Notify a Campus Sexual Assault Advocate (College Counselor—304-829-7572)*

Serving as a sexual assault advocate, the College Counselor will work with you in assisting the victim and explaining Bethany College protocol. Please inform the victim that there are certain situations you cannot handle on your own and will require the help of the Sexual Assault Advocate.

- *Provide emotional support to the victim*

The fact that the victim has told you about the assault indicates a great deal of trust in you. It is important that you remain with the victim as much as possible. You should continue to be supportive and offer positive reinforcement about the victim's decision to get help. Although the Sexual Assault Advocate plays the primary role in organizing assistance for the victim, you can play a critical role in the victim's emotional recovery.

- *Maintain confidentiality*

Confidentiality is extremely important. Often the victim will want no one other than those already involved to know what has happened and the victim's wishes must be respected. It is important to know that it may be necessary for the victim to repeat the details to law enforcement, legal counsel, etc. However, hearing the details of the assault may arouse intense feelings for you as a support person and you may feel a strong need to talk with someone. Discuss your concerns with a Sexual Assault Advocate, counselor and/or clinical psychologist. Do not discuss any aspects of the assault with other faculty, administration, staff or students.

Call Sexual Assault Advocate/College Counselor: 304-829-7572 or Student Life On-Call Staff: 304-830-3933

If neither one of them are available, Campus Safety and Security at 304-829-7744

2. If a complete campus evacuation and closure is necessary during an emergency, it will be announced and coordinated by the Bethany Crisis Management Team from the

Emergency Operations Center. Campus evacuations will be sequential to maintain safety and avoid traffic gridlock.

3. Note that it may or may not be necessary to vacate a specific area during an emergency incident. Occupants in the area may simply be directed to remain on-site and shut down systems, or they may be asked to move to other sectors of their floor or building. In some events (such as extended power outages), evacuations are not necessary unless the incident has generated a hazardous materials incident or immediate health and safety risk. In limited emergencies, wait for evacuation instructions and engage the unit's Crisis Response Team to communicate the information throughout the unit.

2.3.6.2.2 Active Shooter/Gunman

Outside Building

1. Go to a room that can be locked and/or barricaded by using any available object(s) (chairs, tables, desks, etc).
2. Close the window blinds, turn off lights and computer monitors, get everyone down on the floor so that no one is visible from outside the room, take adequate cover/protection (i.e. concrete walls, desks, chairs, tables, filing cabinets, etc.) and remain quiet.
3. Silence all cell phones.
4. Call 9-1-1. If using a cellular telephone your call may be routed to a non-local 9-1-1 call center, do your best to be clear and concise about your location. Be aware that the 911 system will most likely be overwhelmed.
5. When you reach the dispatcher, describe the situation and give your name and location; remain in place until police give the 'All Clear.'
6. Unfamiliar voices may be the shooter attempting to lure victims from their safe space; do not respond to any voice commands until you can verify with certainty that they are being issued by a police officer.
7. Be cautious when evacuating due to a fire alarm ~ it may be used to draw people into the line of fire.

Inside Building

1. If possible, secure the room you are in by locking and/or barricading the door using any available object(s) (chairs, tables, desks, etc).
2. If you cannot secure the room, determine if there is a nearby location that you are able to reach safely and then secure or if you can, safely exit the building.

Inside Room

1. If the active shooter enters your office or classroom, there are no set procedures. The decision to flee or seek shelter inside the room can only be made by you and is dependent upon the circumstances.
2. Try to remain calm, it will aid you in decision making.
3. Call 911 if possible, and alert police to the shooter's location.

4. If you can't speak, leave the line open so the dispatcher can hear what is taking place. Usually the location of a caller can be determined without speaking.
5. If there is absolutely no opportunity of escape or concealment and the shooter is not actively firing on victims it might be possible to negotiate with the shooter.
6. If the shooter has fired on victims you are faced with a life or death situation; only you can consider your next course of action.
7. As a last resort, you may be faced with the decision to overpower the shooter with force by whatever means necessary. When the shooter is close range and you cannot flee, your chance of survival is much greater if you try to incapacitate him/her.
 - a. Attempt to disrupt and/or incapacitate the active shooter
 - b. Act as aggressively as possible against him/her
 - c. Throwing items and improvising weapons
 - d. Yelling
 - e. Commit to your actions
8. If the shooter leaves the area and the environment appears safe, proceed immediately to a safer place.
9. Your area will be an active crime scene. **Do not touch anything** that was in the area of the shooter because of the possibility of the destruction of evidence.

What You Should Do When Evacuating:

- Make sure you have an escape route in mind.
- Do not attempt to carry anything in your hands while fleeing; move quickly
- Keep your hands visible, and follow instructions given by any police officers you may encounter.
- If you know where the shooter is located, tell the officers.
- Remain at the designated rally point until you have been released.
- Do not try to move any injured people; leave them where they are and notify authorities of their location as soon as possible.

What You Should Expect from First Responders:

- Responding police officers are trained to proceed immediately to the area where the shots were last heard; their purpose is to stop the shooting as quickly as possible.
- The first officers to arrive will not stop to aid injured victims; rescue teams composed of additional officers will follow the first team into secured areas and remove injured persons.
- The first officers on the scene may be from different agencies and dressed in different uniforms. There may even be some officers in civilian clothes wearing an external bulletproof vest. Some officers may be dressed in Kevlar helmets and other tactical equipment. They may be armed with rifles, shotguns or handguns. Do as the officers tell you and do not be afraid of them.

Remember: This is a crime scene. Do not disturb possible evidence. Expect that the police will want to question you.

2.3.6.2.4 Evacuation Procedures

1. Evacuation is required any time the fire alarm sounds, an evacuation announcement is made or a College official orders you to evacuate.
2. Turn equipment off, if possible
3. Quickly shutdown any hazardous operations or processes and render them safe.
4. Critical operations staff must follow the emergency plan for their unit. All emergency plans for critical operations shall be reviewed and approved by the Director of Safety & Security. Without prior review and approval, staff members may not remain in a building once an evacuation signal or order has been given without prior review and approval.
5. Notify others in the unit's area of the alarm if they did not hear it.
6. Take emergency supplies and staff rosters, if possible
7. Exit the room.

- a. Take jackets or other clothing needed for protection from the weather.
 - b. Close windows and close, but do not lock, doors as you leave.
 - c. Leave room lights on.

8. If you are unable to leave the building due to a physical disability:
 - a. Go to the nearest area where there are no hazards.
 - b. Use a telephone to call Safety and Security at 7744, or use other means to advise them of the unit's situation.
 - c. Be sure to give them the room number so they can send help to you.
 - d. If possible, signal out the window to on-site emergency responders.
 - e. One person may remain with you if they wish to assist you.
9. Exit the building via the nearest safe exit route. Walk; do not run. Do not use elevators to exit.
10. Move away from the building, report to the unit's designated evacuation point and meet with other persons from the unit or building. Report any missing or trapped people to the emergency responders.
11. Keep existing groups together.
12. Account for faculty, staff, and students and sign in at evacuation point.
13. Wait at evacuation point for directions.
14. Do not reenter the building until emergency staff gives the "all clear" signal. The silencing of the building fire alarm system is normally used as the "all clear" signal. In some cases the fire alarm will be silenced and staff members placed at building entrances to keep people out until the incident has been resolved.

Emergency Preparedness

Emergency preparedness is a coordinated effort of the offices of Student Life and Safety and Security.

TYPES OF EMERGENCIES

There are three levels or types of emergencies:

LEVEL 1 – MINOR INCIDENT. A Minor Incident is defined as a local event with limited impact, which does not affect the overall functioning capacity of Bethany College. The Emergency Management Plan would not be activated.

LEVEL 2 – EMERGENCY. An Emergency is defined as a serious event that completely disrupts one or more operations of Bethany College. Multiple Bethany College resources are involved; the Emergency Management Plan is activated to the extent necessary.

LEVEL 3 – DISASTER. A Disaster is defined as a very serious event that seriously impairs or halts the operations of Bethany College. The Emergency Management Plan is fully activated.

Emergency Management Plan (EMP). The EMP is intended to establish policies, procedures and organizational structure for response to emergencies that are of sufficient magnitude to cause a significant disruption of the functioning of all or portions of the Bethany College. (aka: Emergency Preparedness Plan, Disaster Response Plan, Disaster Recovery Plan, Business Continuity Plan, Business Continuation Plan)

B. Definition of Terms

Emergency Management Plan Coordinator. The Emergency Management Plan Coordinator is a member of the Crisis Management Team who is responsible for the maintenance of the Emergency Management Plan. The Emergency Management Plan Coordinator consults directly with the Bethany College Incident Commander during an actual emergency.

Crisis Management Team (CMT). The CMT is an assemblage of Bethany College officials appointed by the President to advise and assist in making emergency-related policy and financial decisions. The CMT is also responsible for the review and approval of the Emergency Management Plan.

Emergency Operations Center (EOC). The EOC serves as the centralized, well-supported location in which the Crisis Management Team may gather and assume their role.

Incident Command System (ICS). The ICS is a modular emergency management system designed for all hazards and levels of emergency response. The system is used by the Federal Emergency Management Agency (FEMA) and throughout the United States as the basis for emergency response management.

Response Plans. Response Plans are attached to Unit Plans to address specific situations where the Unit has important functions. Response Plans can be organized at the discretion of the Unit.

Unit. A Unit is a department, school or other defined entity of Bethany College.

Unit Plan. A Unit Plan identifies emergency preparation, coordination and response activities for the Unit. Each area identified with critical or special responsibilities is required to develop and maintain a Unit Plan.

Bethany College Incident Commander. The Bethany College Incident Commander is a senior member of the Crisis Management Team and is in charge of the Crisis Management Team. The Bethany College Incident Commander is the individual responsible for the command and control of all aspects of an emergency situation. (a.k.a. Director of Emergency Management, Chair of the Incident Response Team).

Bethany College Communications Center. The central telecommunication facility that receives and disseminates emergency information. Security/Police/Public Safety would typically maintain this facility on a 24/7/365 basis.

Bethany College Emergency Hotline. A telephone number where faculty, staff, students and other interested parties can access emergency information.

Emergency Notification Procedure:

Upon the approval of the President, or designated vice president, the Dean of Student or the Director of Safety and Security will notify the Director of Communications in the event of an emergency on campus. The Director of Communications will then activate the Bethany College Emergency Notification System. Text messages will be sent to students, faculty and staff advising them of one of three course of action. Campus security officers will also attempt to notify students of an impending emergency by use of the public address system installed in the security vehicle and the portable public address system stored at the Office of Safety and Security.

Campus Evacuation

Should a situation arise where the evacuation of Bethany College Campus is required, members of the campus community will receive instructions via the Bethany College Emergency Notification System as to the location of the evacuation site. Verbal and written commands may also be given by the Department of Safety and Security and the Office of Student Life.

- Members of the campus community will be instructed to proceed to the evacuation site quickly but calmly on foot.
- The evacuation site will be divided into sections using the residential hall names. When students arrive at the evacuation site, they will report to the appropriate section. RA's would be responsible for head counts. Department heads and supervisory personnel will be responsible for head counts of employees in their respective departments.
- Once the all clear is given by Campus Security students, faculty, staff and visitors may return to campus.

- If evacuation from the town of Bethany itself is required, arrangements will be made with Brooke County schools for transportation from the Bethany Community to a safe location.

2.4 Information Technology

2.4.1 CALEA (Communications for Assistance Law Enforcement Act)

“On December 14, 2006, the FCC released a Public Notice establishing filing deadlines for CALEA-mandated System Security and Integrity (SSI) and Monitoring Reports. According to the Public Notice, "facilities-based broadband Internet access and interconnected VOIP service providers *subject to CALEA* must file," which means that **exempt institutions are not required to submit these reports.** “

Each institution is required to determine if it is subject to CALEA. Those that self-determine, through legal counsel and technical experts, that they are exempt do not need to file monitoring reports.

2.4.2 Information Technology Usage Policy

2.4.2.1 Introduction

2.4.2.1.1 Scope

The Information Technology (“IT”) Usage Policy applies to the Bethany College community (e.g. faculty, staff, students, and others who from time to time may be granted use of the College’s computing and network resources – hereafter referred to as “user”).

2.4.2.1.2 Purpose

To preserve the security, availability, and integrity of Bethany College computing resources, and to protect all users' rights to an open exchange of ideas and information, this policy sets forth the users’ responsibilities in the use of these resources. This policy attempts to consolidate and formalize various policies, practices and activities dealing with the use of technology at Bethany College.

Users agree to comply with this and other applicable collegiate policies, as well as all federal, state, and local laws and regulations. Users should be aware that violations of this policy may result in revocation of access, suspension of accounts, disciplinary action, or prosecution.

2.4.2.2 Reporting Problems and Violations

Individuals should report problems, outages, or inappropriate IT uses to the Help Desk.

2.4.2.3 Access

Access to computing resources at Bethany College may be granted to accepted students, active students, employees, trustees, and faculty emeritus based on their roles and responsibilities at the College. Temporary access may also be granted to vendors, such as food service employees and visitors to the College.

The following guidelines set forth the standards of behavior expected of all users:

1. User access is granted to an individual and may not be transferred to or shared with another user.
 - This principle is intended to protect the integrity, security, and privacy of a user's account. Sharing access with another individual undermines the security of a user's account, leaving it vulnerable to abuse by others. By not sharing an account, a user protects against unauthorized activities on the account, for which the user would be responsible.
2. The College reserves the right to regulate any activity that occurs on the campus network or on any other technology-based system owned by the College.
 - Users must not engage in activity outside the limits of access that have been authorized for them. This includes but is not limited to:
 - a. Performing an act that negatively impacts the operation of computers, peripherals or networks, or that impedes the ability of others to do their work. Examples include but are not limited to:
 - Tampering with any transmission medium or hardware device, or connecting any unauthorized device or computer to the college network;
 - Intentionally propagating anything that damages hardware and/or software (virus, worm, spyware);
 - Damaging or destroying data;
 - Modifying any disk or software directory provided by the College for any type of special use;
 - Performing an act that places an unnecessary load on a shared computer or the college network.
 - b. Attempting to circumvent protection schemes for access to data or systems, or otherwise uncover security loopholes.
 - c. Gaining or granting unauthorized access to computers, devices, software or data. This includes, but is not limited to:
 - Admitting someone into a locked facility, or unlocking any facility that is normally locked, without permission;

- Permitting the use of any account, including one's own personal account, in a way that allows unauthorized access to resources.
- Users must abide by all applicable laws or government regulations, and operate within the limits articulated by the College. Examples include but are not limited to:
 - a. Downloading or using any material in violation of any software licensing agreement or copyright law;
 - b. Using software or data that infringes on the rights of others. Examples include the production or propagation of material that is abusive, profane or sexually, racially or religiously offensive; or material that may injure or harass someone else, or lead to lawsuit or criminal charges;
 - c. Monitoring someone else's data communications, or otherwise reading, copying, changing or deleting files or software without proper permission of the owner;
- Using college facilities for personal gain, or for the benefit of an organization other than the College or an approved organization.
- Upon resignation or termination, a faculty or staff member's e-mail and related accounts will be terminated or redirected to an appropriate person at the College.
- After graduation a student's e-mail and related accounts will be left open for one year before being terminated. If a student transfers or is dismissed, accounts will be deactivated after 30 days.

2.4.2.4 Security

2.4.2.4.1 General

Appropriate security includes protection of:

- access to information,
- information against unauthorized modification,
- systems against denial of service,
- systems against unauthorized access.

College computer and network resources may be accessed or used only by individuals authorized by the College. Any computer, computer system, or network or device physically connected to or accessing College computer and network resources will be subject to and must comply with this Security Policy.

In order to protect the security and integrity of computer and network resources against unauthorized or improper use, the College reserves the right, at its sole discretion, to limit, restrict, or terminate any account or use of computer and network resources, and to inspect, copy, remove or otherwise alter any data, file, or system resources which may undermine authorized

use. The College reserves the right to enforce these provisions without prior notice to the user.

The College shall not be liable for inadvertent loss of data or interference with files resulting from the College's efforts to maintain the integrity and security of the College's computer and network resources.

2.4.2.4.2 User Responsibilities

- Protect any information retrieved from a password-protected source with an equivalent level of privacy and security.
- Protect account(s) from any unauthorized use and maintain password(s) in strict confidence. Users are responsible for any abuse of the computers with their account(s), by any users who have obtained account passwords from the user, either directly or indirectly.
- Tampering with network equipment settings, moving, reconfiguring, or doing anything that could damage College equipment is strictly prohibited.
- Users will not access or attempt to access any host computer, either at the College or through a network, without the owners' permission and/or through use of login information belonging to another person. Creating, disseminating or running an intrusive, self-replicating, data-collection or otherwise malicious program ("virus"), whether destructive in nature or not is strictly prohibited.
- Use of unsubscribed peer-to-peer software is strictly prohibited.
- The user agrees to not copy, rename, alter, examine, or delete the files or programs of another person without permission.
- Users will be held responsible for damage to the network and other user resources (hardware and software) caused by intentional misuse or otherwise inappropriate use of College resources.
- Each user is responsible for backing up personal and professional data files. Files can be backed up using a portable drive device or at <http://myfiles.bethanywv.edu/>

2.4.2.4.3 Data Security

- Use of sensitive information, such as Social Security Numbers (SSNOs), may only be used where legally required and with appropriate data protection measures. Under no circumstances are SSNOs to be stored in non-encrypted formats such as Microsoft Word, Excel, Access or similar files. SSNOs are not to be used for grading lists or other student groupings.
- Transmission and storage of personally identifiable information will be limited to uses warranted by business need and needs to be encrypted for protection.
- All non-name references to students must be by Bethany College Student ID Number and all non-name employee references must be by Bethany College Employee ID Number.

2.4.2.5 E-mail

Users of campus communications are subject to local, state, and federal laws and regulations and applicable Bethany College policies and procedures.

2.4.2.5.1 Appropriate Use

- E-mail must be used for purposes consistent with the user's role at the College.
- Unless contractually permitted, individuals may not use e-mail for entrepreneurial activities. This includes operating a business, selling, advertising, trading or conducting any commerce not directly related to one's job requirements.
- All materials sent by e-mail must be attributed to the individual, office, or organization sending the material. Spoofing and Anonymous messages, including spamming, are prohibited.

2.4.2.5.2 Objectionable Material

- The College cannot protect individuals against the existence or receipt of material that may offend them. Those who make use of electronic communications are warned that they may willingly or unwillingly come across, or be recipients of, material that they may find offensive. Any persistent, unwanted offensive material should be brought to the attention of the Help Desk or Office of Student Life.
- You may not use e-mail to libel, harass, or threaten other individuals.

2.4.2.5.3 Privacy

2.4.2.6 Internet

2.4.2.6.1 Accessing the Internet

- Bethany College facilities used for connection to the Internet are to be used in a responsible, ethical, and legal manner. Conduct which adversely affects the ability of others to use the Internet or which is harmful to others will not be permitted. The College reserves the right to monitor its technology resources to protect the integrity of its computing systems, networks, workstations, and lab facilities.
- Activities defined as unacceptable in Bethany College facilities are likewise considered unacceptable in regard to Internet usage; this includes, but is not limited to, attempts to obtain unauthorized access, degrade system performance, distribute unsolicited e-mail and violate copyright and licensing laws.

2.4.2.8.1 Help Desk

The Help Desk serves as a central point of contact for the Bethany College community for providing solution-oriented technical support services.

- Hardware – Hardware issues encompass installation, maintenance, upgrades, and connectivity.

a. College owned – The Help Desk will support College owned, technology-related hardware if purchased through the IT department.

b. Personally owned – The Help Desk will provide limited verbal support and guidance to resolve hardware issues with personally owned equipment. Due to the legal nature of service policy agreements with personally owned hardware, the Help Desk is limited in the extent of service it can provide and may refer users to the vendor or manufacturer of the equipment if necessary.

- Software

a. College owned – The Help Desk will, within reason, support software problems regarding Bethany College purchased and developed software, providing it was purchased and installed in accordance with Section 7 (above), Hardware & Software.

b. Personally owned – The Help Desk will provide limited verbal support for software problems regarding personally owned software packages. The Help Desk may refer users to the vendor or manufacturer of the software for additional assistance.

- Classroom Management – The Help Desk will support technology-related issues in the classroom environment.

2.4.2.9 Peer-to-Peer File Sharing

Bethany College maintains a campus network to support and enhance the academic and administrative needs of our students, faculty, staff and other campus users. The college is required by Federal Law – H.R. 4137, Higher Education Opportunity Act (HEOA):

- 1) to make an annual disclosure informing students that illegal distribution of copyrighted materials may lead to civil and/or criminal penalties.
- 2) to take steps to detect and punish users who illegally distribute copyrighted materials.
- 3) to certify to the Secretary of Education that a policy is in place.
- 4) to provide alternatives to illegal file sharing. All users are encouraged to check the list below.

Although the HEOA makes reference only to students using Peer-to-Peer Sharing, this policy applies to all Bethany College network users. The College reserves the right to suspend or terminate network access to any campus user if the violation is deemed severe. Likewise, network access may be suspended if any use is impacting the operations of the network. Violations may be reported to appropriate authorities for criminal or civil prosecution.

2.4.2.9.1 First Violation

The first time a report of distributing or downloading copyrighted files is received, the person who was using the computer at the given time is notified by the Network Services Manager of the violation via an email sent to their campus email address. The user must respond within two business days.

If the user does not respond within two business days the user's network access is suspended (the user's network connection is disabled) immediately and until the situation is resolved. E-mail and other accounts will be disabled. The user is required to submit a signed Technology Copyright Violation Certification Page (below) that states that the user understands copyright issues and the ramifications of a subsequent offense or to demonstrate that the notification was unwarranted. Network access will be restored no sooner than two business days after receipt of the certification page. The Director of Information Technology and Network Operations will send notifications via email of violations to the appropriate vice president, dean, supervisor, sponsor and/or other appropriate personnel. Users who receive notifications of copyright violations are strongly encouraged to review the educational materials located at the campus web-site: www.bethanywv.edu or Inside Bethany

If the user feels the warning is erroneous, he/she must show evidence to the Director of Information Technology and Network Operations that the file(s) was used legally or was not copyrighted. Notifications of all violations will be maintained by Information Technology. If any notification is shown to be unwarranted, no record of the violation notification is retained.

2.4.2.9.2 Second Violation

If a second notification of violation is received, network access shall be suspended immediately. The user is again informed of the violation by email from the Director of Information Technology and Network Operations. Second violations involving students are forwarded to the Dean of Students Office and those involving faculty or staff are referred to the Office of Personnel Services. Personnel Services will notify the appropriate Cabinet officer of the violation. Network access is not restored, if at all, until the case is ruled on by Dean of Students, or reviewed and decided by the appropriate Cabinet officer and the Director of Personnel Services. The Dean of Students or the Cabinet officer can impose whatever sanctions – including termination of network access; probation, suspension, expulsion (for students); or disciplinary action (for faculty and staff) – is deemed appropriate.

The existence and imposition of Bethany College sanctions do not protect members of the campus community from any legal action by external entities or the college itself.

2.4.2.9.3 Alternatives to Illegal Downloading

Illegal downloads hurt artists and deter the incentive to create. U.S. laws protect the rights of individuals regarding their own works. Below are lists of some sites that currently offer free or inexpensive products that you can use without violating copyright law.

2.4.2.10 Policy Violations

Violations of these policies will be dealt with in the same manner as violations of other college policies and may result in disciplinary action up to and including termination of employment or expulsion from the College.

- Material (software, hardware or data) that is found to be in violation of this policy can be banned, confiscated, or otherwise eliminated from the college computing environment.

2.4.3 Use of Mail and Phone

Except for emergencies, members of the campus community are expected to make and receive personal phone calls on their own time. College phone lines shall be kept open for business calls. Excessive use of the telephone for personal reasons will be cause for disciplinary action.

Personal mail shall be received at the individual's personal residence. Personal stamped, outgoing mail will be handled by the College Post Office as a courtesy to employees.

2.4.4 Disaster Recovery Plan

This disaster recovery plan describes the methods and procedures to be used by Bethany College in order to safeguard and restore business operations in the event of a disaster.

2.4.4.1 Levels of Disaster

IT related disasters can be categorized into five different levels:

1. Partial server component failure
2. Total server component failure
3. Total server failure
4. Multiple server failure
5. Loss of physical plant

Levels 1-3 are addressed by redundancy in server components and live backup of data between servers on a nightly basis. Also, enough spare capacity should be maintained so that key services from a failed server can be restored on other servers on other campuses in the college.

This disaster recovery plan addresses levels 4 and 5. When there is loss of physical plant or multiple servers fail in a disaster (regardless of the type of disaster), generally there will not be enough spare capacity to quickly restore services on existing equipment. This plan contains the information and procedures needed to restore services after a level 4 or 5 disaster.

Disasters may be caused by any number of reasons. It is helpful to keep in mind when creating disaster plans the most likely causes of disaster. According to industry literature, here is a list of the seven most likely cause of disaster.

Therefore this disaster recovery plan is written with equipment outage, power outage, fire, tornadoes and building facilities problems in mind. Although procedures specific to each

disaster type are not listed, the general procedures given should work well with any of these types of disasters.

2.4.4.2 Data Processing/Business Environment

BC currently utilizes both networked servers and off-site mainframe applications for its day to day business activities. The mainframe systems are maintained by the ICE, so this disaster recovery plan will focus on recovering the BC network. The BC network is based on Microsoft Windows servers and Linux Servers being accessed from Windows XP on the end users workstation.

Backup Locations

Data Backups:

A full backup to disk will be performed daily on every server and domain controller. The backups shall be stored locally on a network SAN drive. In addition to the disk backup, the mail server will be backed up in several locations (Richardson and Library). A minimum of 2 months or 8 weekly backup sets will be stored on the SAN drive

Backup work areas for end users:

Depending on the severity of the loss of service, end users will be relocated to a different work area, building or campus. Relocating the end users will be the primary focus of the Customer Support team (Emergency Management Team plus Stratuswave contract workers). If the loss of service is localized to a particular area of a building, end users will be moved to other areas of the campus. If the loss of service is to an entire building, users will be relocated to other buildings as necessary

Backup areas to hold classes:

Classes will be moved to unaffected sites in the event of a disaster, per the college disaster recovery plan (which is separate from the IT disaster recovery plan).

Network Equipment List

Here is a list of equipment we currently use on the BC network:

- Cisco 7206 Routers
- Cisco 3500 Switches, Enterasys POE Switches
- Cisco Catalyst 6509 Enhanced Switches
- Barricuda Spam Firewall
- Cisco 5200 ASA
- Packeteer

The members of the Customer Support Team are:

- Director of Information Technology and Network Operations
- Director of Media Services and Classroom Technology
- Applications Support Analyst

The responsibilities of the Customer Support Team are as follows:

- Notify computer customers of the disaster and give them a time frame for recovery.
- Help customers develop manual procedures to accomplish work if resources are unavailable for a long duration of time.
- Have customers list the priority of their day to day work.

2.4.4.4 Emergency Response Procedures

In any emergency the following general procedures should be followed:

During an emergency:

1. Ensure safety of individuals by evacuating premises if necessary.
2. If personal safety is not threatened, secure equipment to minimize damage from the disaster.
3. Notify the correct authorities by pulling fire alarm, calling 911, calling campus police, etc. as needed depending on the type of emergency
4. Notify the IT Help Desk as to the loss of computer services.
5. The IT Help Desk will notify the Disaster Planning Coordinator that a disaster may have occurred.

After an emergency:

1. After the cause of the disaster has dissipated, members of the emergency management team will inspect the damage and report findings to the Disaster Planning Coordinator.
2. Backup sites will be set up and begin operations if necessary to support college business until the primary site is restored to service.
3. Network services shall be restored in priority order as much as possible with functional equipment on hand. Key data and systems shall be restored before less critical data and systems.
4. The additional equipment required to bring the network to full operations shall be listed and ordered from vendors listed in the disaster recovery plan.
5. Once equipment has arrived and the network has been restored to full operations, then the backup site shall not be used anymore and end users will return to their offices and assume normal business procedures.

2.4.4.5 Procedures for specific degrees of disaster:

This section will address major failures such as multiple servers, entire buildings or entire campus. Minor failures, such as single server or partial server are not covered in this document because of the use of redundancy and backups.

Loss of Multiple Servers:

- In the event that multiple servers are lost and cannot be repaired in one day or less, data will be temporarily restored from backup to another server. Users will be notified of new location for data. Changes to login scripts and drive mappings will be done as necessary.
- If the server(s) that were lost were one of the following; mail server, web server, WINS, DNS or DHCP server, they must be built on a new spare server. These servers need to operate on separate servers. If replacement servers are to be built in same location they originally resided, no changes to firewalls, DNS or routing will need to be done. If the site is not safe or unusable, replacement servers will have to be built at another location. Depending on which location is chosen, changes to firewalls, DNS and routing will have to be made.
- Restoration of mail servers could take 3 – 5 days to complete, because of the database integrity checks that must be performed after the backup has been restored.

Loss of WAN Services:

- The BC IT Help Desk shall inform the campus of the loss of WAN connection.

Widespread Virus Problems:

- The virus should be isolated and identified as soon as possible.
- Once identified, a removal method should be determined. Users should then be notified as to what the characteristics of this virus, how to detect the virus, and how to remove the virus.
- An updated virus image file should be obtained from the college virus protection software vendor in order to prevent spread of the virus in the future.

2.4.4.6 Maintaining the Plan:

Maintenance of the plan is the responsibility of the Disaster Planning Coordinator. The steps the coordinator should take to maintain this plan are as follows:

- Ensure that the plan is updated at least once per year.
- Ensure that the plan is tested at least once per year.
- Ensure that the plan is approved by the Cabinet.
- Update the plan at the earliest convenient time after significant network or business changes have occurred that affect the plan.

- Make sure plan is stored in a secured area accessible to the Disaster Planning Coordinator and ensure that at least one copy is kept at the Office of the Vice President for Academic Affairs in a secure locations.

2.5 Public Relations

2.5.1 Publicity and Publications

Publicity releases related to the College are the exclusive responsibility of the Director of Communications.

2.5.2 Press and Other Media

The Director of Communications handles all matters concerning the press and other media. It is the policy of Bethany College that any employee or student at the College who is contacted by the press or other media refers the inquiry to the Director of Communications. Any student or employee appearing in the press or other media as a representative of Bethany College must receive the prior approval of the President or Director of Communications (or in the Director's absence, the Senior Vice President).

2.5.3 Releasing Data

It is the policy of Bethany College that data concerning the College cannot be released to any person or agency outside of the College without the prior approval of the Director of Communications (or in the Director's absence, the Senior Vice President).

2.5.4 Fundraising Coordination

Such activities are welcomed. However, to avoid conflicting programs, College policy is that no person or organization on campus is authorized to solicit a corporation for an outright donation or gift-in-kind in the name of the College without clearance in advance, in writing, from the Senior Vice President. This includes the solicitation of ads for ad books, sponsorships, gifts of equipment, or direct contributions of money, plus anything else that qualifies as a "donation."

2.6 Research Policies

The Institutional Review Board ensures the College's compliance with guidelines for the proper care of animals used in scientific experiments. Committee members are appointed in accord with the guidelines of the National Institutes of Health.

2.7 Copyright Policies

2.7.1 Copyright Policy

The Copyright Law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material.

Under certain conditions specified by law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or

reproduction is not to be “used for any purpose other than private study, scholarship, or research.” If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of “fair use,” that user may be liable for copyright infringement. See below for additional information regarding the “fair use” doctrine.

Bethany College reserves the right to refuse to accept a copying order if, in its judgment, fulfillment of the order would involve violation of the copyright law of any governmental or administrative regulation.

2.7.1.1 A Synopsis of the Copyright Law and Some Important Guidelines

2.7.1.1.1 The Copyright Law

The copyright law is designed to protect works of the mind. The author or creator of a work has four exclusive rights:

1. The right to reproduce the work.
2. The right to adapt the work or produce derivative works.
3. The right to distribute the work to the public.
4. The right to display the work publicly (this refers to paintings, photographs, sculpture, etc.).

These rights have some limitations. Most important to educators is that of “fair use.” Four factors determine fair use:

1. The purpose and character of the use, including whether the material will be for non-profit, educational or commercial use. (Absence of financial gain is insufficient for finding fair use.)
2. The nature of the copyrighted work, with specific consideration given to the distinction between a creative work and informational work.
3. The amount, substantiality, or portion used in relation to the work as a whole.
4. The effect of the use on the potential market of the copyrighted work.

Materials that are not covered may be reproduced without restrictions. Included are works published more than 75 years ago and governmental documents.

2.7.1.1.2 Audiovisuals

Legally produced and obtained audiovisual works may be used in non-profit educational institutions under the following conditions:

1. The work must be part of the educational program.
2. The work must be shown by a student, instructor, or guest lecturer.
3. The work must be shown in a classroom or other school location devoted to instruction.
4. The work must be shown only to students in the class, that is, no guest viewing the work for entertainment or enrichment.

2.7.1.1.3 Prohibited Use

Use is prohibited in non-profit educational institutions when:

1. The work is used for entertainment, recreation, or even cultural or intellectual value unrelated to teaching activities.
2. The work is transmitted by radio or television (this includes closed circuit) from an outside location.
3. The work is shown in an auditorium before an audience not confined to students.

2.7.1.1.4 Off Air Videoing

Off air videoing has specific regulations which permit classroom use:

1. The video may be retained for 45 days from the airing but then must be erased.
2. The video may be shown in class only during the first ten days after the broadcast. (Some PBS programs can only be used and retained for seven days).
3. The video may be shown to students no more than two times during a ten-day period. After the ten-day period, the tape may be viewed only by teachers.
4. The video contents may not be altered or combined to form anthologies, but need not be shown in their entirety.

Rental videos or videos borrowed from the library may be shown in class. Libraries have the right to loan, sell, or otherwise dispose of legally obtained tapes. The “for home use only” labels do not prevent library or classroom use of legal tapes.

Back-up tapes are only permitted when the original is deteriorating and is no longer available on the market.

2.7.1.1.5 Photocopying

Researchers or teachers preparing to teach a class may make or request to have made a single copy of: 1) a book chapter; 2) an article; 3) a short story, essay, or short poem; 4) a chart, graph, diagram, cartoon, drawing, or picture.

Teachers may duplicate enough copies to provide one copy for each student in a course, as long as each copy includes a notice of copyright and as long as they meet the following three tests:

1. Brevity. For poetry the suggested maximum is 250 words, for prose, the guidelines offer two different limitations. Educators may copy any complete story, essay, or article under 2,500 words or excerpts of not more than 1,000 words or 10% of the text. For illustrations, the guidelines suggest no more than one chart, graph, diagram, drawing, cartoon, or picture per book or periodical issue.
2. Spontaneity. The “inspiration and decision to use the work” must occur so soon prior to classroom use that it would not be feasible to write for and receive permission from the publisher to duplicate the material. It is also imperative that the copying occur at the request of the teacher, not at the directive of an administrator or other “higher authority.”
3. Cumulative Effort. Generally, only one copy may be made of a short poem, article, story or essay. No more than three of these items may be from the same collective work or

periodical volume during one class term. The most limiting restriction further specifies no more than a total of nine instances of such multiple copying for one course during one class term. Finally, all multiple copying of a particular work is limited to one course; in other words, copying a work to be used in several courses is not likely to be considered a fair use of the material.

2.7.1.1.6 Prohibited Copying

1. Educators are not to create, through photocopying, their own anthologies, compilations or collective works whether brought together in one collection or reproduced and used separately.
2. Copying must not substitute for the purchase of books, periodicals, or reprints; this prohibition especially applies to the duplication of “consumable” materials such as workbooks, test booklets and standardized tests.
3. Students must not be charged more than the actual cost of copying the material.
4. A teacher must not duplicate the same item from one term to another.

2.7.1.1.7 Software

“Respect for intellectual labor and creativity is vital to academic discourse and enterprise. This principle applies to works of all authors and publishers in all media. It encompasses respect for the right to acknowledgment, right to privacy, and right to determine the form, manner and terms of publication and distribution.

Because electronic information is volatile and easily reproduced, respect for the work and personal expression of others is especially critical in computer environments. Violations of authorial integrity, including plagiarism, invasion of privacy, unauthorized access and trade secret and copyright violations, may be grounds for sanctions against member of the academic community.”

1. It is illegal to duplicate or distribute software or its documentation without the permission of the copyright owner. A back-up copy, for archival purposes, is permitted. It may not, however, be used simultaneously with the original.
2. Software may be loaned, as long as the original copy is not retained for use.
3. Multi-use of software on the campus network requires the appropriate license. A single copy may be used sequentially; i.e. no more than one use per copy at a time.

Illegal software must not be used on campus.

2.7.2 Ownership of Copyrightable Materials and Intellectual Property

This document describes Bethany College’s policies and associated administrative procedures for ownership of copyrightable materials and other intellectual property. Its objectives are:

1. To enable the College to foster the free and creative expression and exchange of ideas and comment;
2. To preserve traditional College practices and privileges with respect to the publication of scholarly works;

3. To establish principles and procedures for sharing income derived from copyrightable material produced at the College; and
4. To protect the College's assets and imprimatur.

2.7.2.1 Overview

Faculty at the College must be free to choose and pursue areas of study and concentration without interference, to share the results of their intellectual efforts with colleagues and students, to use and disseminate their own creations, and to take their created works with them should they leave the College.

This copyright policy is intended to maintain those traditional norms and values that foster, in various ways, the open and free exchange of ideas and opinions. In this regard the policy formulated here is guided by a basic tenet of the 1940 Statement of Principles on Academic Freedom and Tenure of the American Association of University Professors:

Institutions of higher education are conducted for the common good and not to further the interest of either the individual teacher or the institution as a whole.

The common good depends upon the free search for truth and its free expression.

The ongoing revolution in the use of information technology for the production and dissemination of knowledge enables members of the College community to create new forms or types of scholarly works, to communicate with current audiences with new types of materials, and to reach new audiences. The dramatic changes in information technologies and the ways in which they are employed provide an occasion to examine and clarify policy for copyright of works of scholarship produced at the College. This copyright policy statement delineates the rights and responsibilities of the College and its faculty, employees, students, and other members of the community.

By longstanding custom, faculty members hold copyright for books, monographs, articles, and similar works as delineated in the policy statement, whether distributed in print or electronically. This pattern will not change. This copyright policy retains and reasserts those rights.

2.7.2.2 Copyright Ownership Policy

Copyright is the ownership and control of the intellectual property in original works of authorship that are subject to copyright law. It is the policy of the College that all rights in copyright shall remain with the creator unless the work is a work-for-hire (and copyright vests in the College under copyright law), is supported by a direct allocation of funds through the College for the pursuit of a specific project, is commissioned by the College, makes significant use of College resources or personnel, or is otherwise subject to contractual obligations.

1. Books, Articles, and Similar Works Including Unpatentable Software: In accord with academic tradition, except to the extent set forth in this policy, Bethany College does not claim ownership to pedagogical, scholarly, or artistic works, regardless of their form of expression. Such works include those of students created in the course of their education, such as dissertations, papers and articles. The College claims no ownership of popular nonfiction, novels, textbooks, poems, musical compositions, unpatentable software, or other works of artistic imagination that are not institutional works and did not make

significant use of College resources or the services of College non-faculty employees working within the scope of their employment.

2. **Institutional Works:** The College shall retain ownership of works created as institutional works. Institutional works include works that are supported by a specific allocation of College funds or that are created at the direction of the College for a specific College purpose. Institutional works also include works whose authorship cannot be attributed to one or a discrete number of authors but rather result from simultaneous or sequential contributions over time by multiple faculty and students. For example, software tools developed and improved over time by multiple faculty and students where authorship is not appropriately attributed to a single or defined group of authors would constitute an institutional work. The mere fact that multiple individuals have contributed to the creation of a work shall not cause the work to constitute an institutional work.
3. **Patent and Copyright Agreement:** All faculty, staff, student employees, and students who participate or intend to participate in teaching and/or research or scholarship projects at Bethany College are bound by this policy. Except as described in #1 above, this agreement assigns rights to copyrightable works resulting from College projects to Bethany College. This policy applies, and those subject to this policy are deemed to assign their rights to copyrightable works, whether or not an Agreement is signed and is on file.
4. **Works of Non-Employees:** Under the Copyright Act, works of non-employees such as consultants, independent contractors, etc. generally are owned by the creator and not by the College, unless there is a written agreement to the contrary. As it is Bethany College's policy that the College shall retain ownership of such works (created as institutional rather than personal efforts, as described in #2 above), Bethany College will generally require a written agreement from non-employees that ownership of such works will be assigned to the College. Examples of works which the College may retain non-employees to prepare are:
 - a) Reports by consultants or subcontractors;
 - b) Computer software;
 - c) Architectural or engineering drawings;
 - d) Illustrations or designs; and
 - e) Artistic works.
5. **Videotaping and Related Classroom Technology:** Courses taught and coursewares developed for teaching at Bethany College belong to the College. Any courses which are videotaped or recorded using any other media are Bethany College property, and may not be further distributed without permission from the appropriate academic dean. Blanket permission is provided for the use of students, or for other College purposes. Prior to videotaping, permission should be obtained from anyone who will appear in the final program.
6. **Contractual Obligations of the College:** This Copyright Ownership Policy shall not be interpreted to limit the College's ability to meet its obligations for deliverables under any contract, grant, or other arrangement with third parties, including sponsored research agreements, license agreements and the like. Copyrightable works that are subject to

sponsored research agreements or other contractual obligations of the College shall be owned by the College, so that the College may satisfy its contractual obligations.

7. **Use of College Resources:** Bethany College resources are to be used solely for College purposes and not for personal gain or personal commercial advantage, nor for any other non-College purposes. Therefore, if the creator of a copyrightable work makes significant use of the services of College non-faculty employees or College resources to create the work, the creator shall disclose the work to the Vice President for Academic Affairs and Dean of Faculty and assign title to the College. Examples of non-significant use include ordinary use of desktop computers, the Library, and limited secretarial or administrative resources. Questions about what constitutes significant use shall be directed to the appropriate dean or the Vice President for Academic Affairs and Dean of Faculty.
8. **Reconveyance of Copyright to the Creator:** When copyright is assigned to the Bethany College because of the provisions of this policy, the creator of the copyrighted material may make a request to the Vice President for Academic Affairs and Dean of Faculty that ownership be reconveyed back to the creator. Such a request can, at the discretion of the Vice President for Academic Affairs and Dean of Faculty, be granted if it does not:
 - a) Violate any legal obligations of or to the College,
 - b) Limit appropriate College uses of the materials,
 - c) Create a real or potential conflict of interest for the creator, or
 - d) Otherwise conflict with College goals or principles.

2.7.2.3 Administration of Policy

1. **Determination of Ownership and Policy:** The Vice President for Academic Affairs and Dean of Faculty will resolve any questions of ownership or other matters pertaining to materials covered by this policy.
2. **Licensing and Income Sharing:**
 - a) **Licensing:** The Vice President for Academic Affairs and Dean of Faculty seeks the most effective means of technology transfer for public use and benefit and, toward that end, handles the evaluation, marketing, negotiations and licensing of College-owned inventions or copyrightable materials with commercial potential. Computer databases, software and firmware, and other copyrightable works owned by the College, are licensed through the Vice President for Academic Affairs and Dean of Faculty. The Vice President for Academic Affairs and Dean of Faculty must approve in advance exceptions to this procedure.
 - b) **Royalty Distribution:** The Vice President for Academic Affairs and Dean of Faculty will allocate royalties assigned to the College. If copyright protection alone is claimed, royalties normally will be allocated in a similar manner, with the “inventor’s share” allocated among individuals identified by the investigator (or department head if not under a sponsored agreement), based on their relative contributions to the work. Where royalty distribution to individuals would be impracticable or inequitable (for example, when the copyrightable material has been developed as a laboratory project, or where individual royalty distribution

could distort academic priorities), the “inventor’s share” may be allocated to a research or educational account in the laboratory where the copyrightable material was developed.

3. Assignments: No assignment, license or other agreement may be entered into or will be considered valid with respect to copyrighted works owned by the College except by an official specifically authorized to do so.
4. Use of the College Name in Copyright Notices: The following notice should be placed on College-owned materials in order to protect the copyright: Copyright © [year]. The Board of Trustees of Bethany College. All Rights Reserved.

No other institutional or departmental name is to be used in the copyright notice, although the name and address of the department to which readers can direct inquiries may be listed below the copyright notice. The date in the notice should be the year in which the work is first published, i.e. distributed to the public or any sizable audience.

Additionally, works may be registered with the United States Copyright Office using its official forms.

5. Copying of Works Owned by Others: Members of the College community are cautioned to observe the rights of other copyright owners. Contact the Vice President for Academic Affairs and Dean of Faculty for College policies pertaining to copying for classroom use. Policies regarding copying for library purposes may be obtained from the Director of the Library.
6. Sponsored Agreements: Contracts and grants frequently contain complex provisions relating to copyright, rights in data, royalties, publication and various categories of material including proprietary data, computer software, licenses, etc. Questions regarding the specific terms and conditions of individual contracts and grants, or regarding rules, regulations and statutes applicable to the various government agencies, shall be addressed to the Vice President for Academic Affairs and Dean of Faculty.

2.7.2.4 Other Intellectual Property

1. Trade and Service Marks: Trade and service marks are distinctive words or graphic symbols identifying the sources, product, producer, or distributor of goods or services. Trade or service marks relating to goods or services distributed by the College shall be owned by the College. Examples include names and symbols used in conjunction with computer programs or College activities and events. Consult the Vice President for Academic Affairs and Dean of Faculty for information about registration, protection, and use of marks.
2. Proprietary Information: Proprietary information arising out of College work (e.g., actual and proposed terms of research agreements, financial arrangements, or confidential business information) shall be owned by the College. “Trade secret” is a legal term referring to any information, whether or not copyrightable or patentable, which is not generally known or accessible, and which gives competitive advantage to its owner. Trade secrets are proprietary information.

2.7.2.5 Explanation of Terms

1. **Copyrightable Works:** Under the federal copyright law, copyright subsists in “original works of authorship” which have been fixed in any tangible medium of expression from which they can be perceived, reproduced, or otherwise communicated, either directly or with the aid of a machine or device.
2. **Scope of Copyright Protection:** Copyright protection does not extend to any idea, process, concept, discovery or the like, but only to the work in which it may be embodied, illustrated, or explained. For example, a written description of a manufacturing process is copyrightable, but the copyright only prevents unauthorized copying of the description; the process described could be freely copied unless it enjoys some other protection, such as patent.

Subject to various exceptions and limitations provided for in the copyright law, the copyright owner has the exclusive right to reproduce the work, prepare derivative works, distribute copies by sale or otherwise, and display or perform the work publicly. Ownership of copyright is distinct from the ownership of any material object in which the work may be embodied. For example, if one purchases a videotape, one does not necessarily obtain the right to make a public showing for profit.

The term of copyright in works created on or after January 1, 1978, is the life of the author plus seventy years. Copyright in works for hire is for ninety-five years from the date of first publication or one hundred twenty years from creation, whichever period first expires.

3. **Works for Hire:** “Work for hire” is a legal term defined in the Copyright Act as “a work prepared by an employee within the scope of employment.” This definition includes works prepared by employees in satisfaction of sponsored agreements between the College and outside agencies. Certain commissioned works also are works for hire if the parties so agree in writing.

The employer (i.e., the College) by law is the “author,” and hence the owner, of works for hire for copyright purposes. Works for hire subject to this principle include works that are developed, in whole or in part, by College employees. Where a work is jointly developed by College employees and a non-College third-party, the copyright in the resulting work typically will be jointly owned by the College and the third party. In such instances, both the College and the other party would have nonexclusive rights to exploit the work, subject to the duty to account to each other. Whether the College claims ownership of a work will be determined in accordance with the provisions of this policy, and not solely based upon whether the work constitutes a work-for-hire under the copyright law. For example, copyright in pedagogical, scholarly or artistic works to which the College disclaims ownership under this policy shall be held by the creators regardless of whether the work constitutes a work-for-hire under copyright law. Only the Vice President for Academic Affairs and Dean of Faculty may relinquish College ownership in a work for hire.

2.8 Institutional Advancement

2.8.1 Use of the College Name, Seal and Logo

Members of the campus community, either individually or collectively, shall not officially use the name, seal or logo of Bethany College in any activity outside of the regular work of the College. Violation of this rule is regarded as sufficient cause for dismissal or expulsion. Bethany College's name, seal, and logo are the exclusive property of the College, are subject to trademark protection, and consequently, may not be used in connection with goods or services offered by any outside organization without the prior permission of the Senior Vice President. Members of the campus community publish a considerable number of reports in the form of bulletins, circulars, scientific articles, monographs, and books, some of which are copyrighted and others of which are not. Material from such recognized publications is, of course, quotable, and proper recognition should be given to both the individual author and to Bethany College in connection with such quotations.

Official stationery may not be used in connection with "outside activities" except with respect to those academic and scholarly activities described above. No report or statement relating to outside activities may have the name of Bethany College attributed to it. The use of official Bethany College titles for personal gain or publicity is prohibited without the written approval of the Senior Vice President.

2.9 Purchasing and Financial Related Policies

2.9.1 Written Agreements

Any transaction made on behalf of the College with a vendor/supplier that requires a signature of a representative of the College must be reviewed by the Vice President for Finance and signed by a Cabinet Officer or the President of the College. This includes all contracts, agreements, letters of intent, etc. One of the originals or a copy made from the original shall be maintained within the office of the Vice President for Finance.

2.9.2 Furniture

All requirements for furniture shall be processed through a Cabinet Officer who will review any request to determine if a satisfactory piece is available from current inventory. In the event a purchase of furniture is to be made it will be effectuated by a Cabinet Officer who will ascertain that the purchase meets all regulatory requirements and is for an acceptable price. The office of the Director of the Physical Plant will maintain an inventory of surplus furniture.

2.9.3 Information Technology

All requirements for business equipment, information technology etc. must be processed through the office of and approved by the Vice President for Academic Affairs or his designee. This shall include but not be limited to computers, software, printers, copiers, scanners, fax machines, video cameras, projectors, TVs, VCR/DVD players, audio systems, emerging technologies and initiatives in order to insure compatibility with the College's network.

2.9.4 Printing and Advertising

All requirements for outside printed materials or print that will be mailed off campus must be processed through the office of the Senior Vice President or his designee.

2.9.5 Day-to-Day Purchases

All purchases are to be made by a designated requisitioner in the area. Purchase by requisitions must be forwarded to and approved by the applicable Department Head and responsible Cabinet member upon the College's payment form (See Appendix C for payment form). The College's payment form will not be processed unless it contains two signatures, one of which must be that of a Cabinet Officer. Purchases should only be made with the approval of the budget control officer and within existing budget availability.

2.9.6 Lowest Cost Products

It is expected that all purchases made on behalf of the College will be on the basis of lowest cost consistent with required quality and service.

2.9.6.1 Competitive Bidding

The College shall utilize a competitive bidding procedure wherever it is deemed to be practical by the area Cabinet member for the types of purchases in question. Competitive bids should be obtained by the requesting department or a notation made on file as to why this was not possible. Any bids shall be maintained on file by the requestor.

2.9.6.2 Exceptions

It is recognized that, there are certain instances wherein only one bid can be solicited (Single Source). The rationale may include, but not be limited to, one or more of the following reasons:

- Original Equipment Manufacturer or Proprietary Parts
- Only known source for this particular item or service
- Standardization
- Documented material performance

2.9.7 Confidentiality

It is recognized that most of the transactions relating to the purchase of goods or services are of a confidential nature - especially with regard to those vendors doing business with the College and their competitors. It is considered unethical, as well as damaging to the College's competitive position to allow proprietary information about one vendor's quotation to be shared with another competing vendor.

2.9.8 Contractor's Insurance

The purpose of this guideline is to ensure that the College has adequately reduced its exposure to the risk of liabilities that might arise during work performed by outside contractors/vendors on College property. Any contractor or vendor coming on Bethany College property must provide evidence, if not already on file, of a current Certificate of Insurance from their insurance carrier.

2.9.9 Travel and Entertainment Expense Policy

2.9.9.1 General Overview

The College's policy is to reimburse its employee business travelers for all reasonable and necessary expenses incurred while transacting the affairs of the College. Only the Board of Trustees, through the President and/or the Executive Vice President, may approve exceptions to the policy. It is not the intent of this policy to regulate development expenditures incurred on behalf of Bethany College; rather, this policy is to apply to ordinary business trips and expenditures. In addition, the College believes that reimbursements made to "disqualified persons" in accordance with the travel and entertainment reimbursement policy do not constitute "excess benefits" as defined by the Internal Revenue Service. However, there are specific types of expenses which are considered to be personal, and are therefore not reimbursable. The following list is illustrative, and does not necessarily include all items considered to be personal expenses.

- A. Cleaning, pressing and laundry.
- B. Airline and other trip insurance.
- C. Barber, manicurist and shoe shine.
- D. Traveler's check fees.
- E. Repairs on personal automobiles damaged while on College business.
- F. Traffic violations and court costs.
- G. Loss or theft of personal property.

From time to time family members may accompany employees on business trips. The College generally encourages employees to take advantage of business travel for family members. However, except where approved as an exception to the policy, the additional expense incurred as a result of family members is strictly the responsibility of the employee. Whenever possible, separate receipts should be obtained for the employee's expenses.

2.9.9.2 Cash Advances for Travel

Travel advances can be obtained by (1) getting approval from the person responsible for the operating budget or account to which expenses will ultimately be charged and (2) getting approval from the corresponding Cabinet member. The proper form for an advance is the College's Travel and Entertainment Expense Statement (see Appendix C). A travel advance must be reasonable in **both** the amount and the length of time to which the advance applies. The College will not advance cash for an entire semester, sport season or year.

The approved payment order should be forwarded to Accounts Payable well in advance of the travel. A payment order should be submitted two weeks in advance of travel to ensure a check is available for planned travel. The cut off for processing of checks each week is Wednesday at noon for processing on Thursday; requests received after Wednesday at noon will generate checks the following Thursday.

Travel advances should be accounted for no later than thirty (30) days after expenses are incurred. Unless overwhelming circumstances can be demonstrated, the College will not issue a travel advance unless **all** previous advances have been accounted for in a satisfactory manner.

2.9.9.3 Accounting for Advances and Expense Reimbursement

IRS regulations require the College's procedures to be "accountable." In circumstances in which they are not, reimbursed amounts must be treated as taxable income to the employee. An "accountable" plan requires that expenses have a legitimate business purpose and be substantiated with sufficient records (like those which would support a personal tax deduction) and the return of advances in excess of substantiated business expenses.

The law provides that timeliness is a must in this process. Accordingly, the College has adopted the following safe harbor method:

- A. an advance will be made no more than 30 days **before** expenses are incurred;
- B. the employee must substantiate expenses no more than 30 days **after** the expense is incurred; and
- C. the employee must return all unsubstantiated amounts no more than 30 days after expenses are incurred. Within this time frame the following guidelines apply:
 1. All travel advances and requests for reimbursement must be submitted on the College's Travel and Entertainment Expense Statement (see Appendix C).
 2. The statement must include the following:
 - a. The destination and purpose of the trip.
 - b. The business relationship of persons entertained, if applicable.
 - c. Original receipts supporting all lodging expense.
 - d. Original receipts supporting all expenditures of \$25 or more.
 - i. Exceptions to this are a standard mileage reimbursement and other expenses where receipts might not be readily available.
 3. The request must be approved by a Cabinet member. Cabinet member requests for reimbursement require the approval of the President of the College.
 4. Whenever possible a receipt supporting an expense should be obtained. This is usually possible and, in fact, is required for **all** expenses in excess of \$25. The College expects original receipts for normal expenses such as meals. However, when a receipt cannot be

obtained, a description of the expense should be included on the statement, or classified in the appropriate space provided on the form.

When receipts for meals are not obtained, the College will reimburse the **lesser** of actual meal expenses or the IRS per diem allowance for meals.

2.9.9.4 College Credit Cards

If an employee is routinely expected to travel in the normal course of business that employee may request a College credit card. Requests should be made to the employee's Cabinet member. If the Cabinet member concurs, he or she will contact the Chief Financial Officer with the request and a recommended dollar limit for the card.

General rules for the use of College credit cards:

- A. Personal items shall **never** be charged on College credit cards. Using a College credit card for the purchase of personal items will result in revocation of the card.
- B. Credit card bills are sent directly to the cardholder. All receipts, both the credit card receipt and the original hotel/meal receipt, must be saved. The receipts and credit card bill are to be attached to a completed Travel and Expense Form, which must be signed by a Cabinet member and submitted to Accounts Payable by the 20th of each month. The College does not want to incur late payment penalties. Employees could have issues if traveling with declined cards because of non-payment.
- C. The purchase order system should not be circumvented with a College credit card. The cards are intended to make travel easier; they are **not** to be used to buy office supplies, etc.-- this prohibition includes purchases made at the College Bookstore.
- D. Do **not** use College credit cards for cash advances. Cash advances may be arranged through the Finance Office.
- E. When a cardholder leaves the employment of the College, the credit card must be returned to the Personnel Services Department. If a card is ever lost or stolen, the loss or theft should be reported immediately to the Staff Accountant so the card can be cancelled.

2.9.9.5 Transportation

College business travelers are expected to use the most economical and direct mode of transportation available, consistent with the authorized purpose of the travel.

A. Personal Vehicles

Reimbursement for business travel by personal automobile is at the per diem rate per mile as published by the Internal Revenue Service. This per mile rate covers all expenses, except toll charges and parking fees, relating to the operation of the car. Requests for mileage reimbursement should be submitted on a Travel and Entertainment Expense Statement and should include dates traveled, mileage, destination and business purpose of travel. The per diem rate is 56.5 cents per mile for business miles driven.

B. College Owned Vehicles

Business travel using a College vehicle may be arranged on a first-come, first served basis by contacting the Director of Student Engagement and Responsibility. The current per mile charge-out-rate is 56.5 cents per mile.

C. Air Travel

1. An employee may use the travel agent of his or her choice to book the best available coach class of service. However, employees are encouraged to periodically check with more than one agent to ensure the best rates. Upgrades from coach class are permitted provided the upgrade is at no additional cost to the College. Agents may or may not be willing to bill the College directly. All travel arrangements should be made via the Finance Office using the College's credit card.
2. If an agent is going to bill the College directly the employee must know the account number to which the flight will be charged and give that number to the agent to be included on the invoice.
3. All tickets purchased must be non-refundable. If the trip is cancelled, the ticket must be used on the next available opportunity for travel on that airline.

D. If an employee chooses to drive rather than fly on a business trip, reimbursement for travel by personal automobile will be limited to the **lesser** of mileage or the most economical, direct airfare available.

E. Whenever an employee, for his or her convenience, travels by an indirect route or interrupts College travel for personal travel, the additional expenses are the responsibility of the employee.

2.9.9.6 Lodging

The College will pay for single occupancy hotel accommodations. The College expects all employees to use moderately priced hotel accommodations. An exception will be allowed if the hotel is the location of the conference or symposium attended.

2.9.9.7 Meals for Overnight Travel

The actual cost of meals, including taxes and tips (except where limited by contract or grant), while on College business is reimbursable subject to the maximum meal rate set by the IRS for overnight travel to the subject destination. Travelers should select restaurants which are reasonably priced for the locality.

- A. Breakfast will be allowed whenever the traveler is out of town the night before or when the incurred travel begins earlier than a normal breakfast and no meal was provided by the transportation company.
- B. Lunch will be reimbursed provided that the trip begins before the lunch hour.
- C. Dinner reimbursement will be made when the traveler is away from home for the evening meal or does not return home until after the normal dinner hour, and no meal was provided by the transportation company en route.

2.9.9.8 Day Trips not Involving Overnight Travel and Entertaining on Campus

- A. Meals eaten during day trips which do not include overnight travel are reimbursed only if there is a business purpose directly related to the meal. Therefore, a meal eaten while traveling to or from a meeting is not reimbursable because the IRS views this as a personal expense.
- B. On occasion it is necessary for an employee to entertain a campus visitor. For example, this could be someone who is interviewing for a position or a guest lecturer. When circumstances require that the employee accompany the visitor during a meal the College will pay for both the visitor's and the employee's meal since there is a business purpose directly related to the meal.

As in all other situations, the business purpose of the meal and original receipts must accompany the request for reimbursement on the Travel & Entertainment Expense Statement (see Appendix C).

2.9.9.9 Tipping

- A. Tipping is allowed for meal service. However, in no event should the tip exceed fifteen percent of the cost of meals. Tips in excess of fifteen percent will be reimbursed at the fifteen percent amount.
- B. Reasonable tips, not to exceed 15%, for other services such as taxi cab drivers, are also allowable.

- D. Responsibility-Issuance. All persons issued Bethany College keys shall, at all times, be held responsible and accountable for said keys. Appropriate administrators may request and delegate the issuance of keys only as necessary and in accordance with the Key Issuance Procedures below.

2.10.2.3 Key Issuance Procedures

2.10.2.3.1 Employee Keys

1. Complete a Key Request Work Order

7. Duplicate keys will not be issued without approval of a Cabinet member.

Duplicate of outstanding (un-cleared) keys will not be issued.

a. Lost Keys

- i. Department heads are responsible for keys in their employees' possession. Employees in need of a replacement key must fill out a key work request with an account number to be charged to the Department. The Department head may make the employee responsible for the cost of the key replacement.
- ii. The maximum charge will be \$50.00 and may be payroll deducted over a period of time.
- iii. If a lock change is required, the Department is responsible for all costs.

- ii. Exceptions to this rule must be approved by a Cabinet member.
- iii. All other keys must be kept at Bethany College.
- iv. Departments such as Physical Plant whose employees routinely need access to master keys or keys to multiple buildings must meet the following requirements
 - a. When the keys are not in use, they should be stored in a central location with controlled access.
 - b. Employees must return these keys prior to "clocking out" for the day.

c. Key Return Procedures

- i. Keys must be returned upon the employee's termination.
- ii. "Termination" is defined as the voluntary or involuntary separation of the employee from the College's employment, and includes the employee's resignation or retirement, the employee's dismissal by the College, or the employee's death.

- i. During business hours (8:30 a.m. – 5 p.m.) a student may come to Office of Student Life for a spare key.
- ii. After business hours, a student may call the Office of Safety and Security (X7744) for assistance.

- iii. The first lock out is free, each following offense will cost the student \$5.00.

c. Check Out

- i. Students must return their residence hall and room keys to their RA upon checking out from the Residence Halls. Any key not returned will be treated as a “Lost key.”
- ii. The RA will return all keys to the Director of Residence Life.

2.11 All keys are audited by a designated individual from the Physical Plant; once said audit is complete, the keys are then given to the Director of Business Affairs for summer camps and conferences. Demonstrations

Demonstrations shall, under normal circumstances, be registered twenty-four hours in advance with the Dean of Students. All demonstrations (and expression of any form) must be peaceful and orderly. Demonstrations may be organized and led only by members of the Bethany College community. Demonstrations or other forms of expression may not compromise the rights of other members of the College community, nor interfere materially with the general operation of the College. Free speech is a cherished foundation of academia. Forms of expression, however, may not demean or degrade individuals on the basis of religion, national heritage, cultural background, sexual preference, gender, ability or disability, or any such grounds.

2.11.1 Dogs on Campus

There are significant health and safety hazards and nuisances created by unrestrained dogs on campus. Accordingly, the following guidelines shall be enforced:

1. Except as provided in #6 and #7 below, dogs and other animals are not permitted in College buildings, nor in College dormitories
2. Dogs shall not be brought on campus unless they are under the complete control of the owner and present no hazard to people. Its owner shall not regard the wearing of a muzzle by a dog as control.
3. Dogs may not be brought onto the campus except when they are secured to a leash, cord, chain, or similar direct physical control of a maximum length of six (6) feet, the other end of which is retained by a person; or securely confined in a vehicle, cage or similar restrictive conveyance.
4. Dogs may not be tethered on campus.
5. Dogs must have a valid license and tags as evidence of current rabies vaccinations.
6. Trained helping animals (sometimes referred to as service animals) such as guide dogs for the blind, as well as animals being trained as such, are permitted on the College campus and in College buildings for use by those employees and students with registered disabilities.
7. Animals used for approved research projects are permitted on the College campus and in certain College buildings.

2.11.1.1 Pets in Academic, Administrative or Residential Buildings

No pets are permitted in academic, administrative or residential buildings. If the Executive Vice President or Vice President for Academic Affairs and Dean of Faculty has approved the presence of a service animal in a work area during hours of instruction or normal business operations, the service animal owner must post a sign in the office area stating that a service animal is present. At no time are animals, except for service animals, permitted in food service areas such as Boomer's, Benedum Commons or the Bethany Beanery.

2.11.1.1.1 Service Animal Policy

Service animals are animals that assist specific individuals in their daily life as it relates to the individual's disability. The American's with Disabilities Act (ADA) defines a service animal as "any . . . animal individually trained to do work or perform tasks for the benefit of an individual with a disability, including, but not limited to, guiding individuals with impaired vision, alerting individuals who are hearing impaired to intruders or sounds, providing minimal protection or rescue work, pulling a wheelchair or fetching dropped items." An individual who needs the use of a service animal is required to notify the College and request approval for use a service animal on campus. The individual is required to provide the College with proof that the individual has a disability as defined by Section 504 of the Rehabilitation Act of 1973 and the ADA, and that the animal at issue is individually trained to do tasks to assist the individual. For a service animal to be allowed in campus buildings, the animal must be necessary to assist the individual in the activities of daily living and trained to fulfill those functions. **Pets, therapy, companion, or comfort animals are not included in this definition of service animals and are not permitted in campus buildings.**

2.11.1.1.2 Definitions

Therapy, Companion or Comfort Animals: These are animals that have been prescribed as treatment and, while they may be an integral part of therapy, they generally do not assist the individual in the activities of daily living. They may or may not be trained and certified. They are not considered to be service animals and do not have the rights of service animals.

Guide Dog: A carefully trained dog that serves as a travel tool for persons with severe visual impairments or who are blind or have low-vision.

Hearing Dog: A dog that has been trained to alert a person with significant hearing loss, or who is deaf, when a sound such as a knock on the door or a fire alarm occurs.

Service Dog: A dog that has been trained to assist a person who has a mobility or health impairment. Type of duties the dog may perform include carrying, fetching, opening doors, ringing doorbells, activating elevator buttons, steadying a person while walking, helping a person up after the person falls, etc. Service dogs are sometimes called Assist Dogs.

S-Sig Dogs (Social Signal Dog): A dog trained to assist a person with autism. The dog may alert the person to distracting repetitive movements common among those with autism, allowing the person to stop the movement (e.g. hand flapping.) Recognizing familiar persons in a crowd, steering around a mud puddle, responding to other people or social signals are possible roles for a S-Sig Dog. A person with autism may have problems with sensory input and need the same support services from a dog that a dog might give to a person who is blind or deaf.

Seizure Response Dog: A dog that is trained to assist a person with a seizure disorder. The ways in which the dog serves the individual depends on the person's needs. The dog may stand guard over the person during a seizure, or the dog may go for help. Some dogs are capable of predicting a seizure and can warn the person in advance.

2.11.2 Electronic Devices

Cellular phones, pages, and other electronic devices shall not be used in a manner that causes disruption in the classroom, library, or within any College owned or College operated facility. Abuse of cellular devices with photographic capabilities, use of devices for purposes of photographing test questions, or other notes and materials is prohibited. Photographing individuals in secured areas such as bathrooms, locker rooms, or other areas where there is a reasonable expectation of privacy, and/or taking photographs of an individual against their will is strictly prohibited. Electronic transmission of photographs of any person without express permission is strictly prohibited.

2.11.3 Legal Liability of the College

The College is not legally liable for damages or loss of personal property or failure or interruption of services due to weather or acts of God.

The College does not assume responsibility for lost, stolen, or damaged property. This policy covers not only personal possessions, but also those items in an individual's charge (e.g. keys to the residence hall room, residence hall furniture.)

Students are strongly encouraged to provide their own personal and property loss insurance.

2.11.4 Political Activities

Bethany College supports open dialogue on political issues. The College reserves the right to support or oppose issues that affect its values, welfare, the College itself, and/or values and welfare of higher education. The College encourages its faculty, staff, trustees, students, and recognized campus organizations to participate actively in political activities on an individual basis. The policies of Bethany College do not restrict the rights and privileges of faculty, staff, students, and recognized campus organizations to express their opinions freely. The College is committed to preserving and encouraging a diversity of point of view and political opinion.

Political activities on campus must be conducted in a neutral and nonpartisan manner, and in furtherance of the organization's legitimate exempt function (education).

To preserve the integrity of Bethany College and to protect the neutrality of the College in political contests, the following guidelines shall apply. The Vice President for Academic Affairs and Dean of Faculty is responsible for monitoring the guidelines.

2.11.4.1 Guidelines

1. In order to preserve not for profit (501C-3) status, the law requires that the College not participate in or intervene in any political campaign on behalf of any candidate for public office.
2. The College shall not endorse any candidate for political office.
3. All address lists used by the College are considered confidential and shall not be shared with candidates or parties. Individuals may personally deliver campaign literature, but mail room facilities are not to be used for addressing or distributing political materials.
4. No campaign posters shall be posted in or on any of the Bethany College buildings or on campus grounds prior to or during election times, with the exception of those used for historical displays or educational purposes.
5. College buildings and grounds shall not be rented or used for political fund raising. Further, College facilities and services may not be used by or on behalf of an outside organization or outside individual whose purpose is to further the cause of a particular candidate or political party. For example, a meeting on campus with an organizer for a specific candidate that is focused on recruiting campaign workers from the student population would be a violation of these guidelines. On the other hand, a Bethany College graduate now working for a particular candidate speaking on campus to a group of students about what it has been like to be in the political arena, and what the candidate's particular experience has been, would be allowable. The fact that this person casually offers an invitation at the end of the speech to join in on the campaign would not negate the overall educational focus of the event.
6. Campus organizations may use campus communications to announce political forums and discussions sponsored by officially constituted campus groups.
7. No campus political activities, including services and materials, may be paid for with College funds.
8. Use of College properties is subject to College scheduling policy.
9. Funds or contributions for political candidates or campaigns may not under any circumstances be solicited in the name of Bethany College or on the Bethany College campus, and College resources may not be used in soliciting such funds. If Bethany College students, faculty, or staff make political contributions, they must do so as individuals and not on behalf of Bethany College.
10. Campus communications, including those provided by the College's postal service, phone system, or its computer network, shall not be used in support of one particular candidate.
11. Students of the College are free to express their individual and collective political views provided they understand and make clear they are not speaking for or in the name of Bethany College. Endorsement of a particular candidate by a registered student group is not permissible.

12. The Bethany College name and insignia may not appear on stationery or any other material used or intended for support of a particular candidate. This prohibition also applies to any Bethany College entities supported in whole or part by College funds, such as registered student organizations.
13. Appearance of a candidate for public office on campus must be for an educational or informational talk to the College community and must be sponsored by a registered student, faculty, or staff organization. Appearances must be coordinated with Bethany College, who will ensure that opportunities to appear on campus are extended to all viable candidates running for a particular public office. The event shall not be conducted as a campaign rally, and the moderator shall make it clear that the institution does not support or oppose the candidate.

2.11.5 Postings

All posters, flyers, banners, or publications to be displayed or distributed on the Bethany College campus must bear the identification of the group or individual disseminating the information. The only requirement imposed on any student publication, poster, banner, or other printed or written matter is statements in them must not be untrue, libelous, demeaning, or obscene. Postings may only be displayed in appropriate areas, i.e., bulletin boards. Publicity may not be posted on the glass doors of buildings since this is a fire-safety hazard. Tape, pins, or tacks may not be used to affix postings on wood paneling or painted surfaces. Electronic dissemination of events is highly encouraged.

2.11.6 Reservation of Facilities

The scheduling of some of the facilities on campus is coordinated by people other than the Registrar:

1. Academic Parlour: Office of the Vice President for Academic Affairs and Dean of the Faculty.
2. Art equipment, facilities, and studios in the Johnson Visual Arts Center: Chair of the Department of Visual and Performing Arts.
3. Athletic facilities and fields: Director of Athletics and Recreation.
4. Costello Room: Office of the Vice President for Academic Affairs and Dean of the Faculty.
5. Commencement Hall: Office of the Vice President for Academic Affairs and Dean of the Faculty.
6. Economics and Public Policy Laboratory: Chair of the Department of Economics and Business.
7. Laboratories and other special science facilities in Richardson Hall and Kirkpatrick Hall: Chair of relevant departments.

Any registered vehicle that is parked illegally/improperly (i.e., fire lane, blocking access roads, etc.) will be booted or towed. If a visitor is booted, the officer will remove the boot free of charge, unless the visitor’s vehicle has two (2) or more outstanding non-registered tickets.
2. The cost of the boot removal is \$75.00; to be paid before the boot is removed, with no exceptions. Payment can be made at the cashier’s window on the first floor of Cramblet Hall Monday through Friday from 8:30 a.m. to 11:30 a.m. and 1:00 p.m. to 3:00 p.m. Payment can be made by cash, check, or credit card. 3. Once a vehicle is booted, the owner or operator of that vehicle has twenty four (24) hours to pay the fine from the time listed on the boot form, or the vehicle will be towed from College property at the owner's expense. If the vehicle is parked in a fire lane or in any other manner that could create a safety hazard, the Department of Safety and Security reserves the right to tow the vehicle before the twenty-four hour period has passed.
4. When a student vehicle has been booted, there are no grace periods or extensions. The boot removal fee must be paid before the boot will be removed.
5. The \$75.00 boot removal fee cannot be billed to a tuition account. The cost of the parking ticket may be billed to the tuition account if the student chooses not to pay the ticket the day of the boot removal.
6. Arrangements to release the booted vehicle must be made with the Department of Campus Safety and Security located in the Cummins Community Center. The Department of Safety and Security may be reached by calling (304) 829-7744. Release arrangements must be made immediately or the vehicle will be towed and impounded at the owner's expense.

Removing the device or moving the vehicle, by any means or in any manner, before an official release is obtained, constitutes separate and additional offense and may subject the offender to criminal penalties.
